To: John Burton <jburton@jsburton.org>, Front Desk <receptionist@jsburton.org>, lynnkay7@gmail.com <lynnkay7@gmail.com>

9/5/23-INFORMED EVERYONE & WARNING WAS ENTIRELY IGNORED- ELAINE KAPUSTA DANGEROUS OVERMEDICATION-(9/29/23-E.R. VISIT-FACE/EYE INJURY)

PHILIP KAPUSTA IS ALSO RESPONSIBLE FOR 9/29/23 "CRIMINAL MEDICAL ELDER NEGLECT OF ELAINE MAE KAPUSTA'S GRAVE INJURY-BLACK EYE AND NASAL FRACTURES AND CONCUSSION FALLING ON FLOOR AS HE KNOWINGLY SIMPLY DID NOT CARE AND SUPPORTED ALL CRIMINAL ELDER CRUELTY OCCURRINGBY ALL FIDUCIARIES**

JOHN, ONCE-AGAIN, I INFORMED EVERYONE OF OVERMEDICATION AND MOM NEEDING LABS DONE ON 9/6/23 AND "THEY" JUST CONTINUALLY ENTIRELY REFUSED TO GET MOM ANY PROPER MEDICAL CARE-(MONITORING AND TREATMENT) ENTIRELY LEADING TO 9/29/23 MOM LEGS BUCKLING AND MOM FALLING FACE FIRST ONTO HER FACE HITTING THE FLOOR HARD AND LIKELY ALSO CAUSING A CONCUSSION FROM THE FALL, TOO, HITTING THE FLOOR GROUND.

NOW, ONCE-AGAIN, IMAGINE IF ANYONE WOULD HAVE LISTENED TO ME ON 9/6/23 OR PRIOR FOR AN ENTIRE YEAR + SINCE 5/18/22 WITH PREVIOUS MEDICAL ELDER NEGLECT?

1 1/2 YEARS OF MULTIPLE PARTIES CONTINUAL MEDICAL ELDER NEGLECT OCCURRING WITH AN "ESTATE-REQUIRED OVERSEER OF MY MOM'S HEALTH".

MOM WOULD HAVE BEEN DISCONTINUED FROM OVERMEDICATION AND WOULD HAVE GOTTEN HER LABS DONE SHOWING "SEVERE ANEMIA" AND MOM WOULD HAVE GOTTEN IMMEDIATE AND PROPER MEDICAL TREATMENT.

I ALSO HAVE A NESTCAM VIDEO VOICED OF DR. KAYLOE WITH MY ASKING VIA PHONE CALL "DOES DEMENTIA CHANGE THE BLOOD?" AND DR. KAYLOE STATING, "NO, OF COURSE NOT!" I WILL SEARCH FOR THE VIDEO TO ALSO EMAIL YOU.

NO ONE WOULD LISTEN TO ME FOR 1 1/2 YEARS OF MOM'S CONTINUAL MEDICAL NEGLECT.

**Subject: Re: ELAINE KAPUSTA DANGEROUS
OVERMEDICATION**

CORRECTION:

MY MOM WAS ONLY PREVIOUSLY ON ELIQUIS & VITAMINS ONLY-NO ANTIPSYCHOTICS AT HOME SINCE A YEAR AGO!

MOM NEEDS TO BE IMMEDIATELY BROUGHT BACK TO ELIQUIS & VITAMINS AS SHE WAS FOR AN ENTIRE YEAR AND ENTIRELY THRIVED.

On Tuesday, September 5, 2023 at 09:16:07 PM EDT, Lynn Kay <tweeter7@yahoo.com> wrote:

DR. KAYLOE, PLEASE LET ME KNOW IF YOU INFORMED THEM ABOUT MOM NEEDING BLOOD DRAWN IMMEDIATELY AS YOU TOLD ME YOU WOULD DO.

AS IT HAS BEEN 4 MONTHS SINCE 5/11/23-"21 ABNORMAL LABS & 5 BLOOD DISORDERS, INCLUDING ANEMIA" & NO REPEAT URINE CULTURE.

I WILL NEXT BE REPORTING THEM TO THE STATE BOARD OF MEDICINE FOR VIOLATING THE STANDARD OF CARE FOR INVESTIGATING ALL OF MY MOM'S CARE THAT SHE IS NOW RECEIVING WITH ALL OF THE UNNECESSARY MEDICATIONS GREATLY NOW DAMAGING MY MOM'S HEALTH AND MY MOM'S MIND AS THEY FORCEFULLY MEDICALLY DETAINING MY MOM ENTIRELY AGAINST HER WILL.

THEY ARE ENTIRELY OVERMEDICATING MY MOM AND STILL GIVING ENTIRELY UNAPPROVED AND ENTIRELY DANGEROUS ANTIPSYCHOTICS AS THIS VIRGINIA HEALTH UPDATED 8/15/23 MEDICATIONS LIST IS NOT BEING AT ALL BEING PROPERLY FOLLOWED AND THEY ARE GIVING MOM CONTINUAL DAILY LAXATIVES & SUPPOSITORIES AND HAVE NOW ALSO

ADDED DANGEROUS LIFE-THREATENING ZYPREXA WHICH IS NOT FDA-APPROVED FOR DEMENTIA AND MADE MY MOM CRAZY LAST YEAR AND THEY ARE VIOLATING THE STANDARD OF CARE & PUTTING MY MOM'S LIFE AT RISK CONTINUOUSLY NOW IN NOT AT ALL CARING ABOUT HER HEALTH & WELL-BEING.

ALL OF THESE ANTIPSYCHOTICS WERE REMOVED FROM MY MOM LAST YEAR AND HER HEALTH WAS RESTORED.

violates the standard of care for her condition. This has previously been removed from her list of medications. It is NOT FDA approved and is a high risk drug for her.

FDA WEBSITE: WARNING: INCREASED MORTALITY IN ELDERLY PATIENTS WITH DEMENTIA-RELATED PSYCHOSIS

See full prescribing information for complete boxed warning.

• Elderly patients with dementia-related psychosis treated with antipsychotic drugs are at an increased risk of death. ZYPREXA is not approved for the treatment of patients with dementia-related psychosis. (5.1, 5.12, 17.2)

When using ZYPREXA and fluoxetine in combination, also refer to the Boxed Warning section of the package insert for Symbyax.

https://www.accessdata.fda.gov/drugsatfda_docs/label/2014/020592s062021086s040021253s048lbl.pdf

MY MOM WAS ONLY PREVIOUSLY ON ELIQUIS & VITAMINS ONLY NOTHING ELSE. NO ANTIPSYCHOTICS AT HOME.

MOM JUST NEEDS A MILD SLEEPING PILL AND TO BE IMMEDIATELY REMOVED FROM ALL LAXATIVES AND SUPPOSITORIES & NORVASC AND FUROSEMIDE.

MOM HAD NO EDEMA REQUIRING FUROSEMIDE.

LAXATIVES ARE DEHYDRATING MY MOM AND WILL MAKE MY MOM ENTIRELY DEPENDENT UPON LAXATIVES ONCE-AGAIN CAUSING GREAT HARM TO MY MOM.

PLEASE CONTACT GUARDIAN AS I ALREADY HAVE ALSO.

Changes to Your Medication List

August 15, 2023 11:59 PM.

If you have any questions,
ask your nurse or doctor.

CONTINUE taking these medications

amLODIPine 5 MG tablet

Commonly known
as: NORVASC

Take 5 mg by mouth daily

apixaban 2.5 MG

Commonly known as: Eliquis

Take 1 tablet (2.5 mg total) by
mouth every 12 (twelve) hours

furosemide 20 MG tablet

Commonly known as: LASIX

Take 20 mg by mouth daily

nebivolol 10 MG tablet

Commonly known
as: BYSTOLIC

Take 1 tablet (10 mg total) by
mouth daily

QUetiapine 25 MG tablet

Commonly known
as: SEROquel

TAKE 1/2 OF THE TABLET
THE FIRST WEEK ONCE DAILY
AT BEDTIME TO HELP WITH
AGITATION AND INSOMNIA

VITAMIN B 12 PO

Take 3,000 Units by mouth
Three times per week

vitamin D

(cholecalciferol) 10 MCG

(400 UNIT) tablet

Take 50 mcg by mouth Three
times per week

THERE IS SOMETHING PHYSICALLY WRONG WITH MY MOM CAUSING THE "SUDDEN DELIRIUM" AND CONFUSION-(ELAINE KAPUSTA)

THANK YOU, DR. NATALIA, FOR SPEAKING WITH ME THIS AFTERNOON AND CARING ABOUT MY MOM'S HEALTH & WELL-BEING.

SPECIFICALLY, A REPEAT OF MOM HAVING METABOLIC ENCEPHALOPATHY IS OF GREAT CONCERN TO ME.

ALSO OF GREAT CONCERN IS MOM'S VITAMIN DEFICIENCY FROM 4 MONTHS OF SELF-STARVATION LOSING 45 LBS-(8/12/22-1/15/23) HAS CAUSED MOM GREAT PROBLEMS FOR MY MOM AND THEY HAVE BEEN REFUSING TO EVEN CHECK MY MOM'S VITAMINS WITH DOING A COMPLETE VITAMIN PANEL TESTING BLOOD DRAW TO SEE WHAT ALL MY MOM IS NOW DEFICIENT OF FOR THEN MEDICALLY PROPERLY MOM RECEIVING ALL OF THE NECESSARY VITAL VITAMINS.

AND THEY ALSO ENTIRELY REFUSED TO DO AN IRON PANEL OR ANYTHING ELSE FOR 7 MONTHS AND THEN WAS FINALLY FOUND ON 5/11/23 THAT MOM HAS BEEN IRON DEFICIENT SINCE NOVEMBER/DECEMBER 2022. 7 MONTHS HAVING MACROCYTIC ANEMIA AS WAS INDICATED BASED ON MOM'S LABS SINCE AUGUST 2022 AND LONG THEREAFTER.

BACTERIAL BLOODSTREAM INFECTIONS AND ANEMIA DESTROY THE BONE MARROW/BLOOD, EXACTLY WHAT MY MOM HAS BEEN EXPERIENCING SINCE NOVEMBER 2022 AND SAME AS IN VIRGINIA HOSPITAL PREVIOUSLY.

THE INFECTIONS DEPLETED MOM'S IRON AND IRON DEPLETION CAUSES ANEMIA AND ANEMIA CAUSES LOW HEMOGLOBIN AND LOW HEMOGLOBIN CAUSES HYPOXIA-(LOW OXYGEN) AND EXHAUSTION

Can iron-deficiency anemia cause mental confusion?

Specifically, iron plays an important role in how your body makes the neurotransmitters called serotonin, dopamine and norepinephrine – all of them important in mental health. Research suggests a connection between low iron levels and symptoms of depression, anxiety, and schizophrenia,

AND GIVING MY MOM OVERMEDICATION OF DAILY LAXATIVES LAST YEAR CAUSED GREAT PROBLEMS FOR MY MOM NOT BEING ABLE TO DO BOWEL MOVEMENTS BUT JUST ONCE OR TWICE/MONTH FROM AUGUST THROUGH DECEMBER 2022 CAUSING PAINFUL FECAL IMPACTION FOR MONTHS THEREAFTER.

I REMOVED MOM FROM DAILY LAXATIVES IN NOVEMBER 2022 AND MONTHS LATER SHE WAS THEN DOING 10 MOVEMENTS/MONTH IN APRIL AND IN MAY 2023 WITHOUT ANY LAXATIVES, EXCEPT I STARTED PRUNE JUICE SMOOTHIES IN APRIL 2023 WHICH GREATLY HELPED FINALLY END THE MONTHS OF FECAL IMPACTION WITH MOM THEN HAVING "BANANA-SIZED" 🍌'S

DAILY LAXATIVE IS OCCURRING AGAIN NOW WHICH LAXATIVE ABUSE ALSO CAUSES METABOLIC ALKALOSIS.

Chronic use of laxatives is known to cause wasting of both ions [12]. Hypokalemia per se is expected to rather stimulate renal acid excretion and bicarbonate synthesis, leading to metabolic alkalosis also causing CONFUSION.

THEY ARE ENTIRELY INDUCING CONFUSION AND MENTAL IMPAIRED COGNITION ISSUES AND DELIRIUM TO MY MOM BY ALL OF THESE THINGS THAT ARE NOW FORCIBLY OCCURRING ENTIRELY UNJUSTLY TO MY SWEET AND INNOCENT MOM.

MOM WAS TAKING NO MEDICATION EXCEPT FOR ELIQUIS AND VITAMINS AT HOME AND SHE WAS THRIVING.

OVERMEDICATION CONFUSION:

MOM IS BEING GIVEN 50 MG DAILY-(NEVER HAS MY MOM HAD THIS OCCUR) OF SEROQUEL OF WHICH "CAUSES BOTH CONFUSION AND TACHYCHARDIA- FAST HEART RATE-A RECIPE FOR DISASTER WITH MY MOM HAVING ATRIAL FIBRULATION!"

Can quetiapine cause altered mental status?

Quetiapine is a medication that emergency physicians commonly encounter in the overdosed patient. It has complex pharmacology that can result in, among other things, antimuscarinic effects manifesting in altered mental status and coma.

Can Seroquel cause mental confusion?

Seroquel use is sometimes associated with more serious side effects, including: Fainting. Confusion. Unexpected or uncontrollable movements in your arms, legs, face, tongue, or lips

XANAX CAUSES IMPAIRED COGNITION AND DELIRIUM. MOM IS ALSO RECEIVING XANAX NOW.

The role of benzodiazepines in senior health

The 2019 American Geriatrics Society Beers Criteria lists many types of benzodiazepines, including Xanax and Valium, as potentially not suitable for seniors due to the increased risks of: Falls. Delirium. Jun 30, 2023

IN ADDITION TO FUROSEMIDE-DIURETICS ALSO CAUSING CONFUSION.

MOM ALSO LIKELY HAS VITAMIN DEFICIENCY CAUSING CONFUSION

IRON-DEFICIENCY ANEMIA CAUSING CONFUSION

LAXATIVE ABUSE CAUSING CONFUSION

ELECTROLYTE IMBALANCE CONFUSION

Symptoms of an electrolyte imbalance vary depending on the severity and electrolyte type. A slight electrolyte imbalance may not cause noticeable changes. When problems occur, you may experience: Confusion and irritability.

Which electrolyte imbalance can cause delirium?

Too little or too much of some electrolytes has been implicated in delirium, specifically sodium, calcium, and magnesium. Liver impairment causing elevated liver enzymes or the more serious hepatic encephalopathy, has been implicated in delirium

THESE ARE ALL REASONS WHY MY MOM NEEDS TO HAVE LABS DONE IMMEDIATELY TO ENTIRELY MONITOR ALL THAT MY MOM IS NOW CONTINUALLY MEDICALLY PHYSICALLY SUFFERING FROM WHICH IS ALL COLLECTIVELY CAUSING SO MUCH SUDDEN CONFUSION FOR MY MOM.

NOT TO EVEN MENTION STILL THAT MOM HAD HER 4TH BACTERIAL BLOODSTREAM INFECTION ALMOST 4 MONTHS AGO WHICH WAS ENTIRELY IGNORED AT LEAST SINCE NOVEMBER 2022 WHEN THE "SUDDEN DELIRIUM" BEGAN AFTER BACTRIM WAS FINISHED AND MOM WAS NEVER CONFIRMED TO BE FULLY ERADICATED BY TESTING MY MOM.

SO VERY MANY THINGS CAUSE "CONFUSION" AND THEY HAVE JUST ENTIRELY REFUSED TO RULE OUT ANYTHING THAT IS DOING SO CAUSING MY MOM SUCH CONTINUAL TREMENDOUS SUFFERING.

TO JUST NOT CARE IS SO VERY INHUMANE!

THERE IS SOMETHING PHYSICALLY WRONG WITH MY MOM CAUSING ALL OF MY MOM'S DELIRIUM AND CONFUSION AND MOM NEEDS IMMEDIATE MEDICAL CARE AND TREATMENT NOW TO FULLY RESTORE MY MOM'S PHYSICAL AND ALSO MENTAL HEALTH.

A GUARDIAN HAS "A DUTY TO CARE".
