-MOM'S MCLEAN DENTAL RECORDS NEEDED-

SCHEDULE DENTAL X-RAYS

10/10/22-EMAIL IGNORED BY BETSY & BY "ELDERTREE"

1 message

Lynn Kay <tweeter7@yahoo.com>

Tue, Apr 9, 2024 at 3:29 AM

To: lynnkay7@gmail.com <lynnkay7@gmail.com>

"SMOKING GUN EVIDENCE" THAT BETSY WILDHACK RECEIVED AND READ THIS:

""SCHEDULE DENTAL X-RAYS" EMAIL

BECAUSE SHE LISTED THIS TITLED EMAIL ON HER COURT-FILED INVOICE ON THE "10/17/22 INVOICE CHARGE" AND SHE HAS EVER SINCE 10/11/222 THEN GROSSLY NEGLIGENTLY ENTIRELY FAILED TO EVER GET MY MOM ANY DENTAL CARE AND ANY DENTAL X-RAYS AT ALL FOR NOW 18+ MONTHS.

THIS SHOULD HAVE BEEN DONE IN OCTOBER 2022 OR LATEST NOVEMBER 2022!!!

NEGLIGENTLY NOT DOING THIS CAUSED 7 MONTHS OF "TEETH PAIN AND SUFFERING BACTERIAL BLOODSTREAM INFECTION DESTROYING MOM'S PLATELETS AND BLOODCELLS" FROM THE UNDIAGNOSED DENTAL GUM ABSCESS BACTERIAL BLOODSTREAM INFECTION" WHICH WAS FINALLY DIAGNOSED ON 5/8/23 BY DR. CUSOMANO-(DENTIST) & MOM WAS FINALLY GIVEN ANTIBIOTICS & MOM WAS SOON RECOVERING HER DESTROYED PLATELETS AND BLOODCELLS.

WITHHOLDING ALL DENTAL CARE SINCE LAST DENTAL CLEANING ON 9/17/22 WITH DR. CUSOMANO-(I WILL TRY MOM'S MCLEAN DENTAL RECORDS NEEDED-SCHEDULE DENTAL X-RAYS GET MOM'S 2022 DENTAL RECORDS)

THIS HAS CAUSED MOM'S GRAVELY ILL HEALTH & MOM BEING REMOVED FROM HER HOME BECAUSE I CONTINUED TO COMPLAIN ABOUT EVERYONE'S MEDICAL NEGLECT OF MY MOM.

BETSY WILDHACK MUST ALSO BE HELD ACCOUNTABLE FOR HER GROSS NEGLIGENCE AGONG WITH "ELDERTREE" & "DAPPEN" & "DODGE"

EVERYONE'S GROSS NEGLIGENCE IS ENTIRELY WHAT HAS DECIMATED OUR LIVES SINCE MAY/JUNE 2022!

-SMOKING GUN--10/16/22-EMAIL INFORMED ALL REGARDING DENTAL X-RAYS-Ms. Kapusta's dental issues

ELAINE KAPUSTA A.P.S. CASE REPORT #213413

***DENTAL "MOM'S CONTINUAL TEETH PAIN" AND MOM'S NEED FOR DENTAL ALL X-RAYS IGNORED/WITHHELD.**

5/8/23-DIAGNOSED DENTAL GUM PAIN ABSCESS BACTERIAL BLOODSTREAM INFECTION AND ON 5/8/23 GIVEN AZITHROMYCIN ANTIBIOTIC

5/8/23-DIAGNOSIS AFTER MOM OPENED HER MOUTH FOR JUST 1 MINUTE & MOM WAS SO SCARED BEING SO INFECTIONAL AND SO ANEMIC WITH HER BLOODCELLS AND PLATELETS DESTROYED FROM 7 MONTHS OF INFECTIONAL DENTAL TEETH PAIN FROM THE ABSCESS AND MOM THEN ENTIRELY REFUSED TO DO ANYTHING ELSE AND THAT WAS THE DENTIST APPT-5 MINUTES ONLY.

AND THEY HAVE AGAIN ENTIRELY FAILED SINCE THEN TO STILL GIVE MY MOM ANY DENTAL CARE AT ALL-16 MONTHS WITH NO DENTAL CLEANING SINCE 9/17/22 AND 19 MONTHS WITH NO DENTAL X-RAYS SINCE MARCH 2022!!!!!!

CRIMINAL "MEDICAL ELDER NEGLECT" BEGAN WITH "DODGE" & "ELDER TREE" ENTIRELY DENYING MY MOM BOTH DENTAL CARE AND DENTAL TREATMENT & MEDICAL CARE & MEDICAL TREATMENT-(10/16/22-APRIL 2024)-19+ MONTHS OF MOM'S CONTINUAL SUFFERING AS **MOM BEING ENTIRELY DEEMED AS MOM BEING UNWORTHY OF RECEIVING ANY NEEDED, REQUESTED & REQUIRED CARE** **MOM'S LAST DENTAL CLEANING WAS 9/17/22-REQUIRED AS PER DR. DENTIST CUSUMANO WAS **QUARTERLY DENTAL CLEANINGS**-"MOM HAS BEEN DENIED 6-(SIX) QUARTERLY DENTAL CLEANINGS/DENTAL X-RAYS UNDER "DODGE"

AND THE UNTREATED BACTERIAL BLOODSTREAM INFECTION CAUSED:

40% PLATELETS DESTRUCTION ON 1/25/23 LABS.

10/26/22-10/26/23 CAUSED 51% OF MOM'S HEALTHY BLOODCELLS TO BECOME DESTROYED

SINCE DECEMBER 2022, MOM HAS HAD "400+ DAYS OF LOW RED BLOODCELLS ANEMIA LEFT ENTIRELY UNTREATED"-GROSSLY ABNORMAL FOR MOM!!!!!!

"CRIMINAL MEDICAL ELDER NEGLECT BEGAN ON 10/16/22 WHEN "DODGE" & "ELDER TREE" IGNORED ALL UPTEN TEXTS & EMAILS FOR MOM NEEDING AND MY REQUESTING DENTAL CARE FOR MY MOM WHO CONTINUED TO COMPLAIN OF "TEETH PAIN" WHICH WAS FINALLY DIAGNOSED ON 5/8/23 AS "DENTAL GUM ABSCESS BACTERIAL BLOODSTREAM INFECTION" & GIVEN AZITHROMYCIN ANTIBIOTICS AND TOLD TO HAVE FOLLOWUP TREATMENT AND DENTAL X-RAYS & "DODGE" HAS DENIED THIS FOR MY MOM SINCE 5/8/23 HAS MOM EVER HAD A DENTAL CLEANING AND DENTAL X-RAYS IN FEBRUARY/MARCH 2024?

AFTER 10/16/22, THEY THEN RECEIVED UPTEN MORE REQUESTS BY BOTH EMAIL & TEXTS ENTIRELY IGNORED!

THEY HAVE AGAIN STILL ENTIRELY FAILED SINCE 10/16/22 TO GIVE MY MOM ANY REQUIRED AND NEEDED (AS PER DR. CUSUMANO 5/8/23 OFFICE VISIT NOTES STATING REFERRAL FOR FOLLOWUP & X-RAYS)-DENTAL CARE AT ALL-16+ MONTHS-(SEPTEMBER 2022-JANUARY/FEBRUARY/MARCH 2024)

MOM RECEIVING NO DENTAL CLEANING AT ALL SINCE 9/17/22 AND 24 MONTHS WITH NO REQUIRED DENTAL X-RAYS-(MARCH 2022) AND NO DENTAL TREATMENT EVER SINCE 5/8/23 DID MOM FINALLY SEE A DENTIST FOR DENTAL CLEANING & X-RAYS IN FEBRUARY OR MARCH 2024? I HAVE RECEIVED NO MOM MEDICAL INFO & MINIMAL PHONE CALLS.

*DENTAL "MOM'S CONTINUAL TEETH PAIN" AND MOM'S NEED FOR DENTAL X-RAYS IGNORED.

(AS PER DR. CUSUMANO 5/8/23 OFFICE VISIT NOTES STATING MOM REFERRAL FOR FOLLOWUP & X-RAYS)

MOM HAS INHUMANELY RECEIVED NO DENTAL CARE AT ALL-16+ MONTHS-(SEPTEMBER 2022-JANUARY/FEBRUARY/MARCH 2024)

Subject: Re: Ms. Kapusta's dental issues

Mrs. Kapusta saw her dentist at Cusumano and Stuver on April 2021, June 2021, September 2021, and March 2022 (during the period of Lynn Kay's guardianship) and most recently in September 2022.

Attached are the invoices which show what services were performed at each visit. X-rays (see highlights) were done in April 2021 and March 2022.

The insurance payment for Mrs. Kapusta's September visit is pending so there is no invoice yet but we can confirm that she had an exam and received a cleaning on September 20, 2022.

Kind regards,

Cary

Subject: Re: Ms. Kapusta's dental issues

Got my dates mixed up. Lynn says this took place in 2019. Ms. Kapusta had x-rays on August 1, 2018 and Ms. Kapusta's personal dentist, Dr. Hu, at McLean Dental Center and Dr. Hu said in 2019 that Ms. Kapusta needed 3 additional root canals, but it was not scheduled due to Covid.

Lynn reminded Liz Shifflett multiple times in April 2021 and June 2022 about possible issues with fillings or needing a root canal. Liz spoke to Dr. Hu at one point, but we don't know if she followed up with an appointment.

Lynn spoke to Dr. Hu last week and she said it had been a long time, so I don't think she has seen Ms. Kapusta recently.

Subject: Re: Ms. Kapusta's dental issues

Steve, I will send along the requested information later today or tomorrow. Please help me understand what is meant by "Lynn states that she went to her dentist in McLean no more than a year ago, the dentist stated that her fillings might cause her problems and would need to be replaced." Are you saying that Lynn's personal dentist opined that Mrs. Kapusta might have problems with Mrs. Kapusta's fillings?

Subject: Ms. Kapusta's dental issues

All,

"DODGE", "ELDERTREE"-(JEANNE BLUE & KATE MAHONEY + ALSO RACHELLE-JUNE/JULY 2023 LAST DAY?) ALL FAILED FOR 17 MONTHS SINCE 10/16/22 IN CONTINUALLY DENYING MY MOM DENTAL & MEDICAL CARE WITH ALL EMAILS & ALL TEXTS ENTIRELY DISREGARDED AND DENIED AS MOM BEING CONSIDERED AS UNWORTHY OF DENTAL & MEDICAL CARE CAUSING CONTINUAL SUFFERING AND THE UNTREATED BACTERIAL BLOODSTREAM CAUSED PLATELETS DESTRUCTION OF 40% LOSS OF PLATELETS ON 1/25/23 LABS. AND ON 10/26/23-CAUSED 51% OF HEALTHY BLOODCELLS DESTROYED. AND SINCE DECEMBER 2022, MOM HAS HAD "LOW RED BLOODCELLS ANEMIA LEFT ENTIRELY UNTREATED"

Ms. Kapusta continues to complain about her teeth hurting. She was up for much of last night with Boku touching her teeth and stating that "her teeth are the problem." She continues to state the same thing this morning with Freda. Lynn and Freda weighed Ms. Kapusta this morning and she is 140.6 lbs, which is close to 30 lbs of weight loss over the last couple months.

Lynn states that she went to her dentist in McLean no more than a year ago, the dentist stated that her fillings might cause her problems and would need to be replaced. I hope she will be able to do to get dental X-rays this week. This may be a contributing factor to her continued reluctance to eat and weight loss. I understand the need for her to be healthy enough to go, and I hope we will have the results from the urinary and other lab testing. But if it is the fillings that are causing her pain, I think that should be addressed and may help alleviate her lack of sleep and reluctance to eat.

Lynn sent more details about Ms. Kapusta's teeth pain back on September 22. Cary, it is my assumption that she did not receive dental X-rays in September or in earlier dental appointments that you scheduled. Please confirm. X-rays are probably necessary to identify any problems with the fillings themselves.

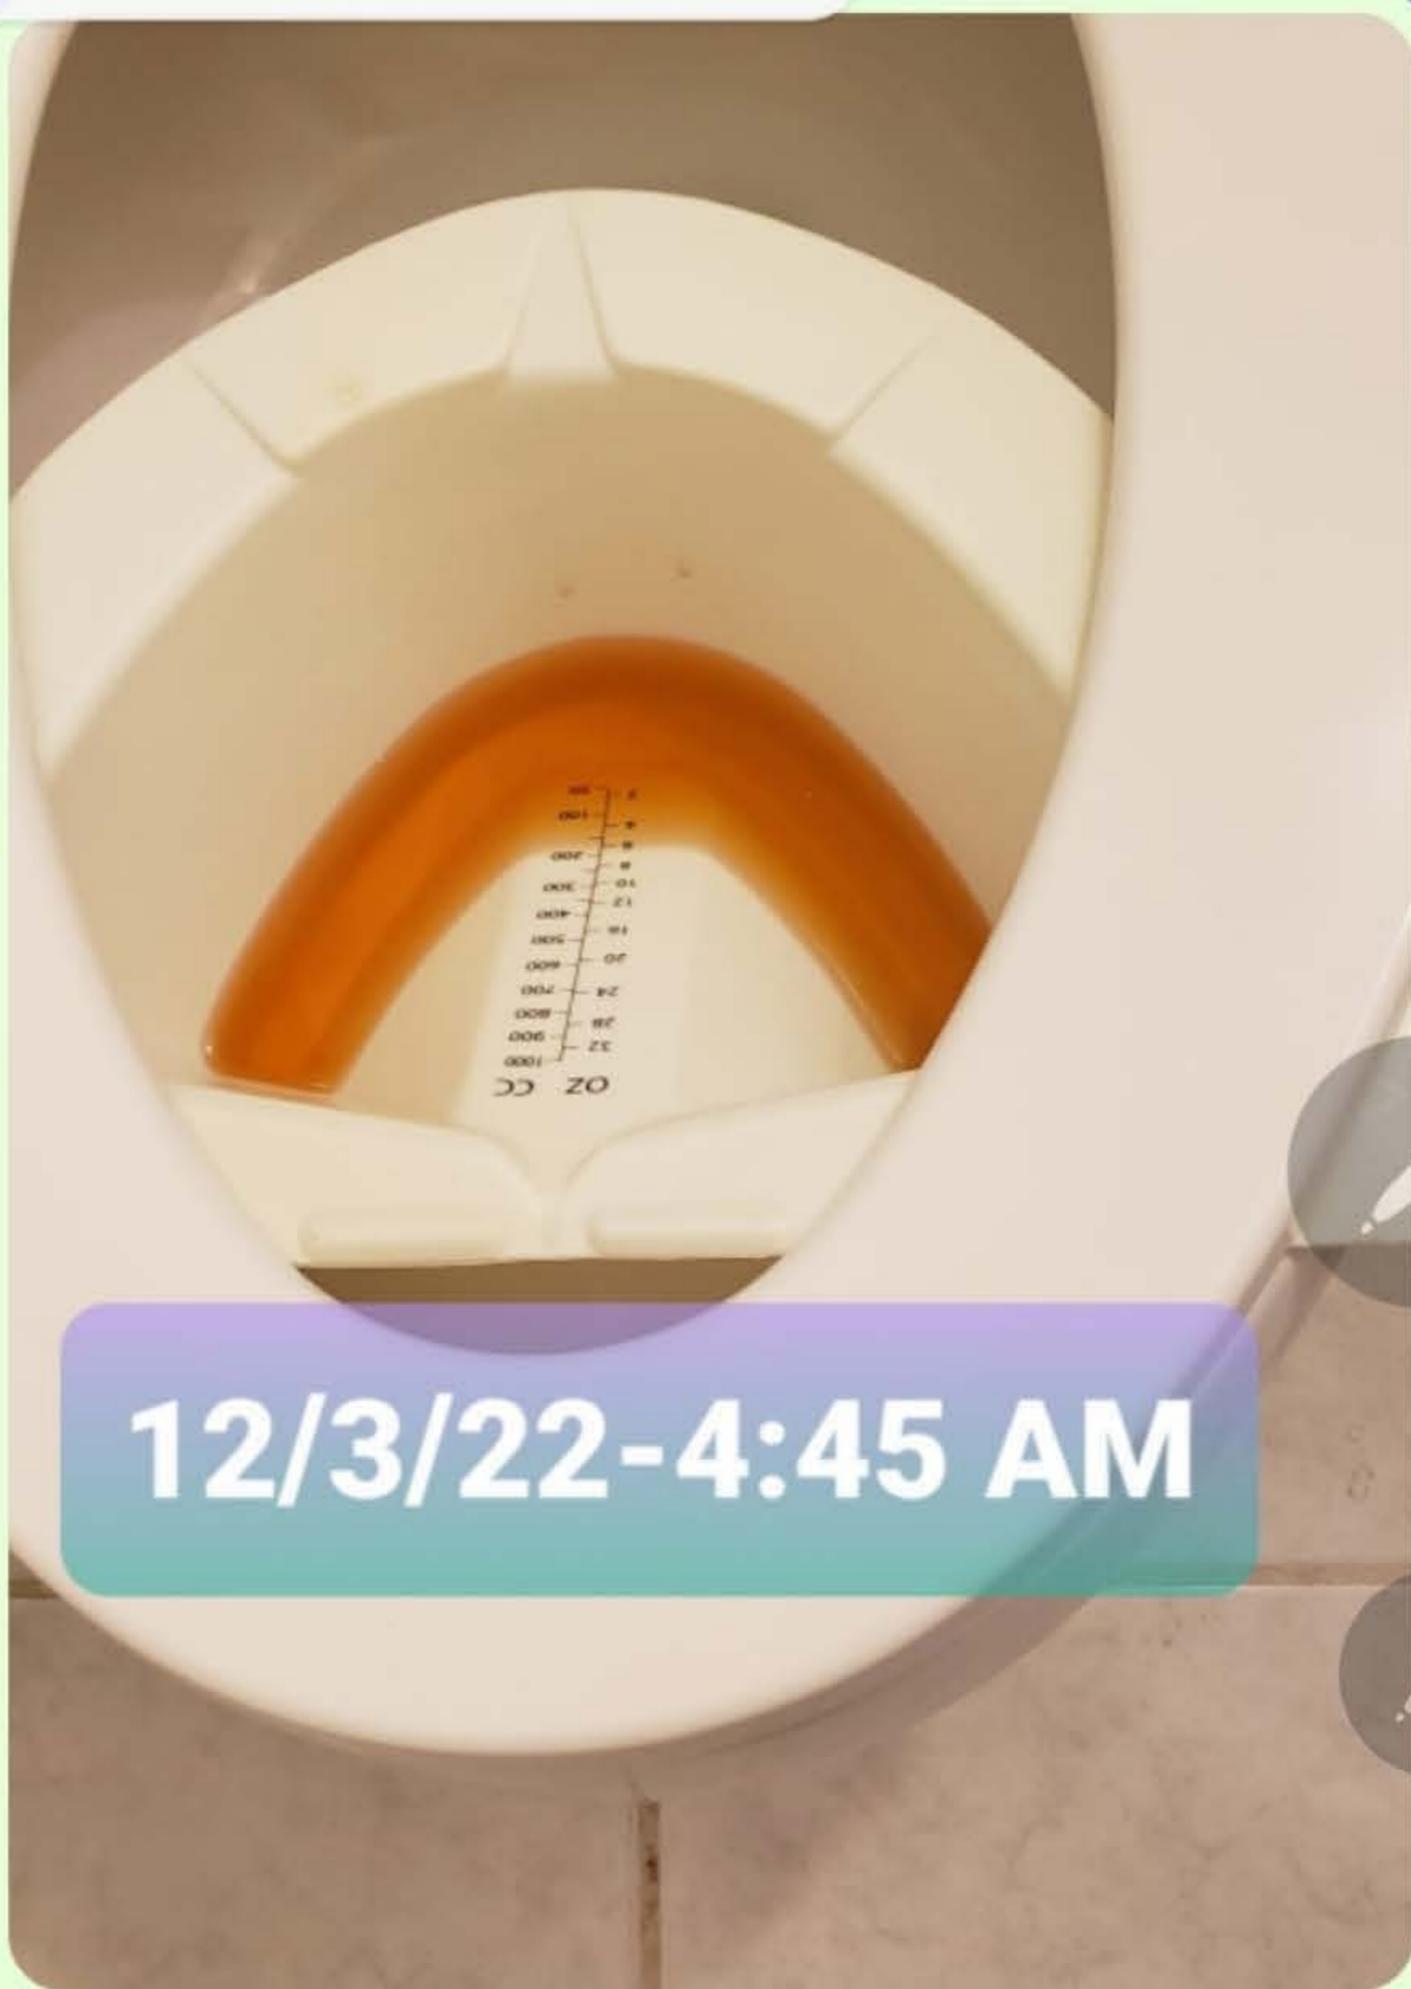

Jeanne/Kate, please let us know if you have any suggestions as to pain alleviation this week.

Subject: Re: ***MOM IS ABSOLUTELY BEGGING FOR HELP!** **PLEASE SAVE MY
INNOCENT MOM!-**SHE DESSERVES A CHANCE TO LIVE AND TO THRIVE AND TO MAKE IT
TO 85! **

IN ADDITION TO THE ULTRASOUND TO DETECT WHAT ALL OF THESE
LUMPS ARE INSIDE OF MOM'S BODY, MOM IS ALSO IMMEDIATELY
NEEDING TO SEE AN ENDCRINOLOGIST AND A KIDNEY SPECIALIST AND
TO ALSO HAVE AN ENDOSCOPY TO EVALUATE MOM'S
THROAT/ESOPHAGUS & STOMACH TO SEE IF EVERYTHING HAS BEEN
DAMAGED FROM THE 3 MONTHS OF TORTUROUS DRUGS BEING POURED
DOWN MY MOM'S THROAT SO UNCARINGLY.

ALSO, I THINK MOM SHOULD BE EVALUATED BY VIRGINIA HEART IN
REGARDS TO IF MOM'S AFIB HAS IMPROVED SINCE MOM LOSING
ALMOST 40 LBS & MOM BEING OFF OF METOPROLOL & FUROSEMIDE-
(STARTED IN 2017/2018)-4-5 YEAR.

NOW STOPPED ENTIRELY NOW FOR 1 1/2 MONTHS TO SEE IF MOM
STILL HAS AFIB-SINCE AFIB STARTED IN THE 80'S WHEN MOM WAS ALOT
HEAVIER-(OBESE) THAN NOW!

I THINK *MOM SHOULD SEE VIRGINIA HEART-DR. NOTORIANNI THIS MONTH-(IN 2-3 WEEKS FOR MOM TO BE EVALUATED-I WILL SCHEDULE AN APPT ON MONDAY)** AND THEN *AGAIN IN FEBRUARY/MARCH 2023-(3 MONTHS LATER) FOR MOM TO BE ENTIRELY EVALUATED BY VIRGINIA HEART AGAIN & THEN ALSO FOR MOM TO BE EVALUATED WITH A SLEEP STUDY OVERNIGHT IN APRIL/MAY 2023 AND I, ALONE, WILL STAY WITH MOM* AS I HAD DONE THE LAST TIME IN 2019 FOR MOM WITH ME, IN MY BEING SO UNCOMFORTABLY SLEEPING ON THE LOUNGE RIGHT NEXT TO MOM ALL NIGHT LONG!

=====

I DID AN EXPERIMENT LAST NIGHT WHICH HAS, SO FAR, GONE EXCEEDINGLY WELL, AND I HAVE ALSO NOW GAINED INSIGHT INTO MOM'S CONDITIONS.

MOM & I FELL ASLEEP ON THE COUCH AT 8:30 PM. I ASKED JULIETTE TO SEND BOKU UPSTAIRS AT 8 PM WHEN SHE ARRIVED. WANTED **TO SEE IF POSSIBLY NOT HAVING MOM SEE SHIFT CHANGE WITH PEOPLE COMING & GOING ALL THE TIME MIGHT HELP MOM NOT BECOME AGITATED CONSTANTLY-* *MOM HAS *NOT SAID A WORD OR GOTTEN UP "SLEEPING DEEPLY "SITTING ON COUCH SLEEPING FOR ALMOST 8 HRS NOW AT 4:30 AM WITH ME LAYING DOWN ALSO ON THE FAMILY ROOM COUCH!"-NOW VERY FASCINATING TO ME!

THIS ALSO INDICATES TO ME, *THAT MOM'S KIDNEYS NOT BEING PRESSED DOWN UPON BY GRAVITY WHEN MOM IS SLEEPING PRONE DOWN ON MOM'S BACK ON THE BED MAY BE WHY MOM IS NOW SLEEPING WELL SITTING LOUNGED, MOM IS SITTING SLEEPING NOW, NOT LYING DOWN IN BED.-**I WILL TRY THIS AGAIN TONIGHT TO SEE IF I GET THE SAME RESULT FROM MOM & TO SEE HOW, HOPEFULLY *2 NIGHTS OF GOOD DEEP SLEEP, HOPEFULLY, GREATLY HELPS MOM & *BOKU WILL BE MY WITNESS SINCE BOKU HAS NOT YET SEEN MOM AT ALL FOR AN ENTIRE WEEK-LAST FRIDAY NIGHT!**

MOM DID SLEEP TALK ONLY ONCE-3:30 AM AFTER SLEEPING DEEPLY AND QUIETLY FOR 7 HRS.

I WAS LAYING DOWN OUTSTRETCHED ON THE COUCH AND MOM WAS SITTING LOUNGED BACK COMFORTABLY ON LARGE COMFY PILLOWS ON THE COUCH "SITTING".

I AM EXHAUSTED! AND SO IS MOM. IT WILL BE INTERESTING TO SEE IF ALL OF THIS DEEP SLEEP GREATLY IMPROVES MOM'S CONFUSION AND CRYING EPISODES. BECAUSE SO FAR 8:30 PM TONIGHT-4:30 A.M.-(8 HRS) MOM HAS NOT CRIED, AT ALL. AND MOM HAS NOT GOTTEN UP EITHER SINCE SITTING DOWN AT 5:30 PM.

IN ADDITION, **MOM HAS NOT GONE PEE FOR ALMOST 20 HRS NOW, TOO!-"SHE BROKE HER 13.5 HR RECORD OF NOT PEEING AT ALL" NOW SINCE 8:45 AM=20 HRS

AND FRIDAY, MOM ONLY DRANK 12 OZ FLUID.

**MOM IS HAVING SERIOUS KIDNEY PROBLEMS!

MOM NEEDS IMMEDIATE ULTRASOUND DONE IMMEDIATELY TO DETECT IF THERE ARE ANY KIDNEY STONES!

***UPDATE-4:45 AM-MOM WOKEUP H'ANGRY-SPITTING ANGRY FROM THE ""DAWN EFFECT" OF HAVING HIGHER GLUCOSE OCCURRING DURING THE EARLY A.M. HOURS BROUGHT ABOUT SUCH ANGER AND AGGRESSIVENESS IN MOM DUE TO CORTISOL OCCURRING IN MY MOM-UNBELIEVABLY MOM CUSSING FROM MOM JUST WAKING FROM A DEEP SLEEP AND MOM FINALLY NEEDING/WANTING TO IMMEDIATELY GO PEE. IT WAS A SEMI-AMOUNT & THE PEE WAS VERY DARK.

WE THEN WENT UPSTAIRS TO MOM'S BEDROOM FOR MOM TO GET MORE SLEEP.

****BOKU SNAPPED A PIC SINCE I HAVE NO PHONE MEMORY LEFT TO SNAP ANY MORE PICS UNTIL I DELETE ALOT FROM MY PHONE.-**BOKU WILL EMAIL TO PARAGON WITH SAYING MOM "LAST PREVIOUSLY PEEED 20 HRS AGO AT 8:45 AM"**

5:15 AM-MOM FINALLY DRANK 4 OZ OF MILK/WATER/ACTIVIA-(NOTHING FOR 12 HRS) & MOM WENT BACK TO SLEEP. NOW ONCE-AGAIN DEEPLY SLEEPING, THOUGH ALSO HAVING SPURTS OF SLEEP TALKING.

I BELIEVE WITH MOM OFF OF ALL OF THOSE EXTREMELY DANGEROUS TOXIC FOR MOM DRUGS FOR ALMOST 2 MONTHS NOW, EVEN THOUGH LIKELY THEY ARE NOT ENTIRELY YET FLUSHED OUT OF MOM'S KIDNEYS.

AND

MOM HAVING LOST SO MUCH WEIGHT SO VERY QUICKLY IN MOM NO LONGER BEING OBESE

AND

MOM NOW POSSIBLY NO LONGER HAVING SLEEP APNEA DUE TO *MOM LOSING "MORE THAN 1/4 OF MOM'S BODY WEIGHT"*

How much weight do I need to lose to get rid of sleep apnea?

If you have problems with OSA-(OBSTRUCTIVE SLEEP APNEA) from *being obese or overweight*, weight loss can be an option to help manage your OSA. *Losing as little as 5-10% of your body weight can improve or resolve OSA.*

Does being overweight cause sleep apnea?

Excess body weight contributes to sleep apnea by causing increased pressure on upper airways, leading to collapse and decreased neuromuscular control from the fatty deposits. These fatty deposits contribute to decreased lung volume and make it more difficult to breathe.

Can I get rid of sleep apnea on my own?

Maintaining a healthy weight can keep your airways clear and reduce sleep apnea symptoms. Research shows that modest weight reduction in people with obesity can eliminate the need for upper airway surgery or long-term CPAP therapy. In some cases, weight loss can eliminate sleep apnea.

AND DUE TO ALL OF THIS,

POSSIBLY ALSO *NOT EVEN HAVING AFIB ANYMORE!*

MEDICATION & LIFE STYLE PLAYS AN IMPORTANT ROLE IN PHYSICAL HEALTH & WELL-BEING.

****MOM'S AFIB MAYEVEN POSSIBLY BE SUBSIDING WITH PROPER SLEEP AND EXERCISE AND NO CONTINUED TOXIC MEDICATIONS.**

****VERY IMPORTANT TO EVALUATE IF AFIB IS STILL NOW AN ISSUE FOR MOM WITH **MOM LOSING MORE THAN 1/4 OF MOM'S PREVIOUS 40+ YEARS OF OVERWEIGHT BODY WEIGHT****

DOES MOM NEED ELIQUIS?-DOES MOM STILL HAVE AFIB? NEEDS TO BE EVALUATED NOW & THEN EVALUATED EVERY 3 MONTHS TO SEE IF, HOPEFULLY, MOM GETTING PROPER SLEEP AND HAVING LOST SO MUCH WEIGHT NOW GREATLY IMPROVES MOM'S HEALTH.

Can you reverse AFib with diet and exercise?

Obesity, high blood pressure, sleep apnea, and elevated blood sugar (typically caused by type II diabetes that is not well controlled) can all be improved by losing weight through diet and exercise. As those conditions improve, a patient's atrial fibrillation symptoms will often improve as well. Jul 2, 2018

IF SO, *WHY WOULD MOM NEED TO BE TAKING ANY MEDS AT ALL?

IF MOM'S BLOOD PRESSURE IS NORMAL?

AND WHEN MOM'S GLUCOSE-(HIGH BLOOD SUGAR) IS, HOPEFULLY, ONCE-AGAIN NORMAL AGAIN AS, I BELIEVE THAT IT WAS IN MAY 2022, BEFORE **THIS 6 MONTH LONG TORTUROUS NIGHTMARE IN MOM'S CONTINUING DETERIORATING HEALTH* ENTIRELY OCCURRING DUE TO MULTIPLE UNDIAGNOSED & UNTREATED MULTIPLE INFECTIONS & "THE TOXIC DRUG SLUDGE" WHICH WAS ENTIRELY UNCARINGLY FORCED UPON MY MOM FOR ALMOST 100 DAYS OF 800+ PILLS OF TOXIC SLUDGE FORCIBLY CONSUMED BY MOM INTO MOM'S STOMACH POSSIBLY CAUSING STOMACH ISSUES!**

AND

IF MOM'S KIDNEYS CAN ALSO, HOPEFULLY, BEGIN REGAINING NORMALCY OF BEING ENTIRELY FLUSHED OUT OF ALL TOXINS,

AND MOM, HOPEFULLY, STARTS DRINKING AND EATING HEALTHY AND HAVING AN ADEQUATE MEALS CONSUMPTION.

I AM GOING TO BE *TRYING OTHER NEW TACTICS THIS WEEKEND IN GETTING MOM TO DRINK AN 8 OZ SMOOTHIE EVERY 2 HRS, EXCEPT AT NOON-2 PM & ALSO GETTING MOM UP EVERY HOUR FOR EXERCISING BOTH MOM'S MIND & MOM'S BODY & TO GO PEE AND THEN ALLOWING MOM TO REST IN SITTING FOR THE EVERY OTHER HOUR TO SEE IF THIS WEARS MOM OUT SO THAT SHE CAN STOP THE NONSTOP TALKING BECAUSE SHE WILL JUST BE TOO EXHAUSTED TO TALK!

**REGINA NICKNAMED MOM, "WALK AND TALK" AS *MOM IS SO "RESTLESS AND CONFUSED" THAT MOM JUST DOES "WALK AND TALK" ALL DAY UNTIL LATE NIGHT IN MOM'S MIND AND BODY GOING IN HYPOMANIA MODE*-FASCINATING TO SEE HOW THIS WEEKEND WILL GO IN OUR DOING ALL OF THIS.

MAYBE WITHIN A FEW MONTHS, MOM CAN MAYBE, FINALLY HAVE "A CLEAN BILL OF HEALTH"

"HEAL THE BODY AND YOU WILL HEAL THE MIND!"**-(MY QUOTE)**

Lynn I know you remain convinced that there are some other explanations to your mom's condition other than dementia with behavioral changes (a well known and established diagnosis we deal with a lot.) But the "other causes" remain very elusive so far.

We will not stop trying to be alert to other possibilities that can complicate your mom's condition but so far (since I started working with you and your mom) we haven't found any other concrete explanation (except once with a urinary tract infection which was treated.)

Since then her labs and urine tests do not explain anything unusual except the diagnosis I listed above. Using Bactrim (the sulfa based antibiotic) in the light of numerous subsequent normal urine tests and cultures would not be indicated and the last time we treated her UTI the white blood cells declined in her blood stream significantly probably as a consequence of a well known side effect of the antibiotic. As such I can foresee causing her harm with random use of the antibiotic especially in the presence of 100% proof that she did /does not have a urine infection the last few times we tested her.

Repeating urine tests every few weeks does seem like a prudent idea though since they can creep in spontaneously and UTIs can cause behavioral changes that can be mixed in and confusing with the behavioral changes seen with her dementia.

On Sat, Dec 31, 2022 at 4:18 AM tweetery7 <tweetery7@yahoo.com> wrote:

MOM WOKEUP WITHb FOREHEAD SWEATS AND WAS SOMEWHAT DISORIENTED AND IT WAS ONLY 71 DEGREES IN HER BEDROOM. FREDA WITNESSED EXACTLY THIS WHEN I POINTED IT OUT TO HER IN ALERTING MOM'S CONDITION TO HER THIS MORNING MOMENTS AGO.

MOM WAS WEARING A SHORT SLEEVED SHIRT AND WAS STRANGELY SWEATING.

BASED ON THIS, IT SEEMS EVIDENT TO ME THAT MOM IS SUFFERING AN INFECTION.

CAN YOU PLEASE ORDER BOTH BACTRIM LIQUID & BACTRIM HORSEPILLS FOR MOM BECAUSE SOMETIMES SHE REFUSES ONE OR THE OTHER.

FOR MULTIPLE MONTHS NOW, MOM'S BEHAVIOR HAS BEEN EXTREMELY CONCERNING.

MOM'S BEHAVIOR NOW AND FOR THE LAST 3+ MONTHS-(MID-SEPTEMBER-EARLY OCTOBER & THEN AGAIN MID-OCTOBER TO TODAY) HAS BEEN THE SAME AND MOM WAS DIAGNOSED WITH U.T.I. ON 10/11/22, AND GIVEN BACTRIM.

MOM SEEMED TO BE RECOVERING AFTER 4 DAYS OF BACTRIM AND THEN SHE WENT DOWN AGAIN WITH DELIRIUM AND CONTINUES TO PRESENT DAY TODAY.

I BELIEVE THAT MOM IS STILL SUFFERING U.T.I./ DELIRIUM FROM THE MONTHS AND MONTHS OF UNTREATED WITH DELAYED UNDIAGNOSED U.T.I.'S SINCE AUGUST/SEPTEMBER 2022.

INFECTIONS ARE NOT ALWAYS DETECTED BY LAB TESTING AND MOM'S LEUKOCYTES ESTERASE CONTINUES WITH THERE BEING A TRACE SEEMINGLY INDICATING LIKELY CONTINUED INFECTION.

AND ON 10/24/22 U/A HAS ABNORMAL U/A MICROSCOPIC-TRACE-Leukocyte Esterase AFTER THE 10 DAY BACTRIM DOSAGE WAS ALREADY COMPLETED INDICATING CONTINUED INFECTION BEING SUFFERED BY MY MOM.

AND NOW STILL STATING THE SAME "TRACE ABNORMAL" *Leukocyte Esterase* RESULTS ON THIS MOST RECENT U/A INDICATING APPARENTLY LIKELY CONTINUED INFECTION BEING SUFFERED BY MY MOM WITH THE EVER SO OBVIOUS SUDDEN SIGNS OF U.T.I. DELIRIUM CONTINUING TO THIS PRESENT DAY FROM ?6+ CONTINUOUS INFECTIONS SUFFERED IN 6 MONTHS SINCE MID-MAY 2022

I DON'T BELIEVE THAT IT WILL HURT MOM TO HAVE A DOSAGE OF BACTRIM TO SEE IF IT CAN KNOCK OUT ANY LINGERING CONTINUED INFECTION THAT HAS NOT BEEN HEALED.

12/23/22-TEXTED JEANNE

KLEBSIELLA PNEMONIA ABNORMAL LAB RESULT

MOM HAS NEVER BEEN THE SAME SINCE 10/18/22 AS PER NESTCAM MOM "FLIPPED A SWITCH" BECOMING A SUFFERING AND DAILY INCREASINGLY CONFUSED WOMAN WHO HAS PROGRESSIVELY INCREASED IN CONTINUED DAILY SUFFERINGS.

MOM IS LIKELY SUFFERING FROM CONTINUED U.T.I.'S DELIRIUM WHICH APPEARS TO HAVE BEGUN PRIOR TO THE 10/11 BACTRIM BEING COMPLETED

THERE IS THIS 10/16/22-(BEST DAY FREDA HAD EVER EXPERIENCED WITH "INDEPENDENT & AWARE MOM" NESTCAM OF MOM'S INDPENDENCE & MOM'S AWARENESS WHICH IS NOW NO MORE JUST BEING 2 MONTHS AGO!

MOM WENT FROM A BLUBBERING MENTAL BASKETCASE MID-SEPTEMBER 2022 TO APPARENTLY RECOVERING WITH BEGINNING 10/11/22 OR 10/12/22 BACTRIM BEGINNING DOSAGES THROUGH 10/16/22 TO THEN AGAIN BECOMING A CONFUSED & SUFFERING PERSON JUST 2 DAYS LATER PROGRESSING TO TODAY

AND NOW 44 HRS-(WEDNESDAY-5 PM-FRIDAY-1 PM) HAD NOT EATEN ANYTHING & TODAY JUST ATE ONLY A 1/4 OF A TURKEY SANDWICH AT 1 PM TODAY AND IS NOW 131.6 LBS.

AND ON 10/24/22 U/A HAS ABNORMAL U/A MICROSCOPIC-TRACE-Leukocyte Esterase AFTER THE 10 DAY BACTRIM DOSAGE WAS ALREADY COMPLETED INDICATING CONTINUED INFECTION BEING SUFFERED BY MY MOM.

AND NOW STILL STATING THE SAME "TRACE ABNORMAL" *Leukocyte Esterase* RESULTS ON THIS 12/22/22 MOST RECENT U/A INDICATING APPARENTLY LIKELY CONTINUED INFECTION BEING SUFFERED BY MY MOM WITH THE EVER SO OBVIOUS SUDDEN SIGNS OF U.T.I. DELIRIUM CONTINUING TO THIS PRESENT DAY FROM ?6+ CONTINUOUS INFECTIONS SUFFERED IN 6 MONTHS SINCE MID-MAY 2022

THIS WAS "GENERAL PRACTITIONER" DR. DAPPEN'S ENTIRELY "UNEDUCATED OPINION" OF MY MOM & HER HEALTH.

HE IS **ABSOLUTELY NOT AT ALL QUALIFIED AS A KIDNEY SPECIALIST OR AS AN ENDICRINOLOGIST** EITHER AND HE APPEARS TO ALWAYS, JUST AS EVERY SINGLE OTHER PERSON HAS DONE PRIOR TO AND AFTER THE 6/30/22-"D'DAY"-(DESTRUCTION DAY) HAS SUGGESTED THAT MOM'S MAJOR SUDDEN DELIRIUM AND CONFUSION WAS "SIMPLY JUST DEMENTIA".

I YELLED IT OUT LOUDLY THAT EVERY SINGLE PERSON WAS WRONG AND ABSOLUTELY EVERYONE CONTINUED TO IGNORE MY 100'S OF WARNINGS WHICH 1ST BEGAN ON 5/18/22 WHEN I TEXTED "THE P.P.N.C." THAT MOM JUST SAID, "I AM NOT FEELING WELL!" AND IT WAS ENTIRELY IGNORED FOR OVER A MONTH CONTINUOUSLY AND THEN "D'DAY" HAPPENED SETTING OFF "AN ABSOLUTE UNBELIEVABLE AND UNFATHOMABLE TIME-BOMB IN ENTIRELY BLOWING UP BOTH OF OUR ONCE PEACEFUL & STRESSESS LIVES INTO ABSOLUTELY UNRECOGNIZABLE SMITHERINES!" AND IS NEVER EVER TO BE PUT BACK TOGETHER TO BE ABLE TO ERASE THIS 6+ LONG ENTIRELY TRAUMATIC AND LIFE-CHANGING 24/7 CONTINUING NIGHTMARE THAT BOTH MOM & I ARE NOW CONTINUALLY BEING FORCED TO ENDURE 24/7!

IF ONLY THAT 1 PERSON HAD EVER BOTHERED TO LISTEN TO ME IN MID-MAY 2022 AND UNBELIEVABLY, HERE WE ARE TODAY.

SO, CLEARLY HEAR ME NOW:

MOM IS NOW IN SO MUCH PHYSICAL AND MENTAL PAIN FROM THE TOXIC KIDNEYS PAIN THAT SHE NOT ONLY PUT HERSELF TO BED, SHE IS NO LONGER EVEN ABLE TO MUSTER UP THE STRENGTH TO EVEN BE ABLE TO CRY!

MOM HAS BEEN SOUND ASLEEP, NOT EVEN MOVING FOR ALMOST 3 HOURS NOW WITHOUT EVEN MAKING EVEN 1 SINGLE PEEP.

PLEASE SAVE MY MOM, BECAUSE THIS MAY NOW BE OUR LAST CHANCE TO DO SO!

"AN IMMEDIATE ACTION PLAN MUST BE SET INTO MOTION TODAY" IN BEING "TAKEN NOW TO SAVE MY MOM!"

I stand by my medical judgment and 40 years of clinical experience and what I wrote . Let's see what the rest of her medical team and caregivers can bring to this.

On Sat, Dec 3, 2022 at 6:12 PM Lynn Kay <tweeter7@yahoo.com> wrote:

DR. MOM'S KIDNEYS ARE NOT FUNCTIONING PROPERLY!
ABSOLUTELY WEEKLY TESTS ARE IN ORDER FOR 2+ MONTHS OF ABNORMALITIES CONTINUOUSLY INDICATING POOR KIDNEY FUNCTION.

I DO NOT UNDERSTAND HOW YOU CAN PROFESSIONALLY STATE OTHERWISE THAT MOM'S CREATNINE, MOM'S GFR AND ETC. ARE INDICATING EXTREMELY POOR KIDNEY FUNCTION WHICH CAUSES TOXINS TO BUILDUP CAUSING CONFUSION AND PAIN AND SUFFERING FOR MY MOM.

WEEKLY TESTS ARE NEEDED AS THESE ABNORMAL RESULTS HAVE INDICATED ARE OF MAJOR CONCERN!

On Saturday, December 3, 2022 at 05:22:49 PM EST, Alan Dappen <alan.dappen.md@doctokr.com> wrote:

Lynn I seem incapable of getting the message through that from the labs so far, they demonstrate your mom has a "clean bill of health." More lab tests are not going to be useful. Regular lab tests at this point are unacceptable and in my view could be construed as undo pain and suffering towards your mother or insurance fraud by the insurance (MEDICARE) if they investigated this in any detail and violates my professional ethical code and therefore I can not abide by these continuous requests to repeat more lab tests that have an unfounded clinical significance to your mother's condition and so far are not relevant to her health in any way.

In the meantime we await the result of the urine culture since this can have some clinical explanation for what's happening to your mom.

Pursuing other avenues such as an ultrasound or CT scan can be discussed and might provide some explanations but so far:

- 1- I strongly suspect they will not reveal anything different than what we already know is her established diagnosis,
- 2-She will not cooperate to do them without heavy sedation,(which has its own risks)
- 3- Almost any significant findings are highly unlikely to change the treatment and approaches to care already being employed.

Alan

On Sat, Dec 3, 2022 at 4:25 PM tweetry7 <tweetry7@yahoo.com> wrote:

DR, HERE IS WHAT MOM'S URINE LOOKED LIKE AFTER 20 HRS NOT PEEING FROM 8:45 AM YESTERDAY-4:45 A.M. THIS MORNING!

IN ADDITION, MOM'S CONTINUED BACK, SIDES AND CHEST PAINS CONTINUE FOR OVER A WEEK NOW!

MOM'S GLUCOSE-(HIGH BLOOD SUGAR), IS THANKFULLY, FINALLY BEING GRADUALLY REDUCED AS I HAVE GREATLY REDUCED MOM'S TOTAL SUGARS AND CARBOHYDRATES SINCE 11/12/22, ALMOST 3 WEEKS NOW, HOWEVER REMAINING IN THE TOP HIGH RANGE GIVES ME NO COMFORT AFTER DRASTICALLY REDUCING MOM'S SUGARS.

HOWEVER A1C STILL REMAINS EXTREMELY CONCERNING AS AN OBVIOUS INDICATION OF 3 MONTHS OF TOP OF THE RANGE GLUCOSE LEVELS SUFFERED FOR 3+ MONTHS, DUE TO THE DRUGS TOXICITY FORCED DOWN MY MOM'S THROAT.

HOPEFULLY, IN TIME, IT WILL ALSO GO LOWER.

MOM STILL NEEDS WEEKLY LAB TESTING UNTIL MOM RECEIVES "A CLEAN BILL OF HEALTH"

MOM'S KIDNEYS-(KIDNEY FAILURE) HAVE MOM GREATLY SUFFERING CONTINUOUSLY FOR MONTHS NOW LEADING TO THIS DAY OF "EXTREMELY DARK URINE AFTER 20 HRS" AND NOT BEING ABLE TO PEE NORMALLY-(KIDNEY INFECTION/KIDNEY STONES)?

NEED A HOME VISIT ULTRASOUND DONE IMMEDIATELY FOR IDENTIFYING ALL OF THESE STRANGE THINGS-(LUMPS...CONTINUED PAIN) IN MOM'S SIDES UNDER BREASTS AND IN STOMACH AND DETERMINING IF KIDNEY BLOCKAGE FROM KIDNEY STONES.

WOULD ALSO BE GOOD TO GET A FULL MAMMO IF ULTRASOUND DOESN'T IDENTIFY THESE STRANGE THINGS INSIDE OF MOM THAT ARE SO EASILY NOW FELT UNDER HER SKIN.

MIGHT ALSO BE GOOD TO TEST FOR THYROID ISSUES, TOO.

ATTACHMENTS REGARDING HIGH CREATININE & LOW GFR CONTINUOUSLY & KETONES IN U/A ALSO GREATLY INDICATE MOM'S KIDNEY PROBLEMS AND CANNOT BE OVERLOOKED AS "BEING NORMAL".

All,

1/13/23-ALL FIDUCIARIES FAILED TO INFORM THE COURT THAT GEORGE W. DODGE WAS UNFIT TO BE GUARDIAN WITH ALL FIDUCIARIES DENYING 93 DAYS OF DENTAL CARE TO MY MOM SINCE 9/20/22-8/1/24=*681 DAYS DENIAL OF DENTAL CLEANING & *883 DAYS DENIAL OF DENTAL X-RAYS!**

For many months, Elaine has been complaining about her teeth hurting and holding and pointing at her teeth when she is eating. I most recently witness this on the zoom call last week. We raised this concern a number of times with the previous temporary guardians. She had a dental appointment back in September, but simply had a cleaning to my knowledge and did not have x-rays. Lynn tells me that in 2019 Elaine went to the dentist and the dentist stated that her fillings were very old and might need to be replaced soon.

If Elaine's fillings are hurting her, or if she has any cavities, that might be one factor affecting her eating and preventing her from eating more. We suggested to the temporary guardians to have x-rays done but I do not believe that it was. We would recommend getting her x-rays scheduled at the earliest convenience.

Not sure if any of these potential procedures would require local anesthesia or for her to be fully anesthetized, which would obviously be a concern. I simply want to bring these matters to your immediate attention as they may be affecting her weight loss and eating.

Virginia Heart called and spoke to Lynn this morning. They said that Eliquis should not be discontinued, in their view, unless her platelets go below 50, and then it can be reevaluated. They recommend retesting and monitoring. You might want to talk directly with Virginia Heart yourselves.

Subject: Re: Elaine Kapusta status

George, right after I sent my thoughts on the Elquis, I looked back at other meds Elaine had been on and worried about if Elaine was on furosemide (a diuretic) . There may be some confusion if she is or is not still taking this medicine but it would be a more likely explanation than the Eliquis for the low platelets based on my experience. I sent a message to Jeanne Blue already asking her to please

verify this. It would be much easier to find out that furosemide is the culprit than Eliquis since the former I could manage while the later would require the cardiologists opinion.

Alan

Subject: Re: Elaine Kapusta status

Yes the downward trend in the platelets is concerning.

My first suggestion before moving on to a referral is to repeat the blood count since , as we discussed variations in platelet levels can fluctuate a fair amount.

However, if the platelets are staying at or below 100,000 then the likely culprit is ELIQUIS= apixaban which is the blood thinner she uses for reducing future strokes due to her history of atrial fibrillation.

My suggestion then would be to consult the cardiologist about strategies of which blood thinner med she should be changed to. Several alternate choices are in the same family as Eliquis so not surprisingly have the same listed side effect. Switching to COUMADIN=warfarin is a consideration but is very tricky to get the right dose and requires frequent blood tests sometimes twice a week, then once a week and if all goes well over time, once a month to be sure the dose is correct. Dietary changes can have effects on the bleeding time . Elaine is not a great candidate for coumadin because of the frequency of needed blood tests vs dietary habits, so consulting with cardiologist would be the first step in my view assuming the platelets continue to drop.

On Sat, Jan 28, 2023 at 10:20 AM stine stinelaw.com <stine@stinelaw.com> wrote:

Lynn told me that Ms. Kapusta had a regularly scheduled appointment at Virginia Heart this past Wednesday, which I understand was scheduled in advance by the previous care manager Liz Shifflett. At this appointment, Ms. Kapusta had a blood draw and her platelet count came back at 107, the lowest count recorded. Lynn also states that while sitting on the toilet yesterday Elaine acted very strangely, closing her eyes tightly for a lengthy period of time, and seeming to be in a strange behavioral state. Elaine also had a very rough night last night, not sleeping well, unlike most nights in the past several weeks.

Lynn continues to be concerned about the downward trend in platelet count. I understand that "several studies suggest decreased platelet count is considered to be one of the risk factors for cerebral infarction" and also increases risks of strokes. 107 is well below normal range, and the last 3 tests have all been well below normal range.

Lynn recommends her mother see a hematologist as soon as possible.

Here is the current platelet history:

To: George Dodge <gdodge@georgedodgelaw.com>, Lynn Kay <tweety7@yahoo.com>, Lynn Kay <lynnkay7@gmail.com>, Jeanne Blue <jeanneblue@eldertreecare.com>, alan.dappen.md@doctokr.com <alan.dappen.md@doctokr.com>, Elizabeth Wildhack <elizabeth@mwmlegalgroup.com>

All,

Following up on some other good news as to Elaine's health, in addition to the weight gain to about 133 lbs last week, Lynn tells me that Elaine was able to pass her bowels three times in 5 days last week. That may not sound remarkable, but both Lynn and Juliette confirmed to me that when Elaine was doing worse these past months, she was sometimes only passing her bowels about once per week, at most. In addition, her urine is remaining very clear, not the very dark brown urine of a couple months ago. This is likely due in large part to Lynn doing a great job of keeping her hydrated in addition to giving Elaine healthy meals.

Lynn informs me that the nurse who visited with Jeanne Blue a few days ago did confirm that she felt the same bulge on the left side of Elaine's stomach that Lynn has been reporting for a long time now. The nurse did not know what the bulge was, but she could feel it too.

Doctor, what testing would be advisable to find out what this bulge could be?

10/16/22-"INFORMED ALL FIDUCIARIES OF MOM'S "TEETH PAIN"-(4 MONTHS AGO!)

George, Lynn also would like you to authorize her mother's regular dental cleaning which is due and to also permit her mother's dental X-rays. For many months now, Elaine has pointed to her teeth and indicated they hurt. It might be that her fillings need some work, or perhaps there are some cavities or pre-cavities. Lynn is very careful to brush her mother's teeth multiple times per day, but Elaine consistently seems to indicate pain in her teeth. This has been going on for many months, and we have multiple times requested dental X-rays.

ALSO, B12, D, IRON & FOLATE TESTING ALONG WITH RHEUMATOID FACTOR ALSO NEEDS TO BE DONE FOR RULING THINGS OUT. IN ADDITION MPV-(MEAN PLATELET VOLUME) TESTING WOULD ALSO BE GOOD FOR FURTHER PLATELET DESTRUCTION TESTING.

IN ADDITION, PLEASE CAN MOM & I BOTH GET TESTED TO SEE IF I CAN GIVE A TRANSFUSION TO MY MOM FOR GIVING MOM PACKED RED BLOOD CELLS SINCE MOM IS CONTINUALLY APPEARING TO HAVE SIGNS OF ANEMIA?

I WILL PAY FOR MY BLOOD TYPE & CROSS MATCH IF I NEED TO DO SO, BUT LET'S PLEASE JUST GET THIS DONE.

I HAVE NO IDEA IF MOM'S & MY BLOOD ARE THE SAME OR NOT AND APPEARS WOULD DEFINITELY BE GOOD TO KNOW THIS EXTREMELY PERTINENT INFORMATION BASED ON MOM'S BLOOD PLATELETS AND RBC AND HEMOGLOBIN AND BONE MARROW DESTRUCTION NOW CONTINUALLY SEEMINGLY OCCURRING SINCE KLEBSIELA PNEUMONIAE ENTERED MY MOM'S BODILY SYSTEM.

On Wednesday, March 15, 2023 at 05:27:18 PM EDT, stine [stinelaw.com](mailto:stine@stinelaw.com) <stine@stinelaw.com> wrote:

This morning, Lynn was shown a copy of the latest lab results from March 13. Ms. Kapusta's platelet count continues to diminish, with the lowest count to date of 90 on March 13. I believe the lowest she had ever had before was 107. Lynn also said the number of the other test results were trending negatively. Of particular concern, the steadily lowering platelet count is corresponding to Ms. Kapusta's recent lethargy, lack of energy, needing to sleep in the day as well as during the evening, and at times, lack of appetite. Lynn has been reporting this to me and Jeanne over the past couple weeks.

IGNORED ALL REQUESTS FOR HEMATOLOGIST AND BLOOD CULTURE

Dr. Dappen, considering the consistent downward trend of platelet count and Ms. Kapusta's recent lethargy, I'd suggest that it is time to revisit having Ms. Kapusta see a hematologist, or at least to obtain a blood culture. And also a regular monthly testing regime, all of which presumably can be done at home, would be advisable.

Please email Lynn a copy of the 3/13 test results.

Mon, Mar 27, 2023 at 12:32 PM

To: Lynn Kay <tweetery7@yahoo.com>, Alan Dappen <alan.dappen.md@doctokr.com>, George Dodge <gdodge@georgedodgelaw.com>, lynnkay7@gmail.com <lynnkay7@gmail.com>, Jeanne Blue <jeanneblue@eldertreecare.com>

Dr. Dappen,

ALL OF THIS WAS ENTIRELY IGNORED, AS USUAL!

To follow up on my earlier emails, and Lynn's emails below, we would like to know your assessment as to the need of a blood culture and/or hematologist referral. I know there was talk about bringing Lynn hematologist referrals the last time you were there earlier this month, but none were provided.

Also, it's my understanding that right now we are wanting to do regular testing every two weeks, which would mean the next testing would be around March 31. Jeanne, can you move forward with scheduling testing at the end of the month? Thanks.

Finally, could someone please advise as to the status of the March 13 urine tests? We have been asking what the status of this repeatedly and to my knowledge no one has ever responded

Subject: Action Items

George,

1. Lynn and I have repeatedly reminded you and Jeanne that Ms. Kapusta is well past her scheduled dental cleaning. Please coordinate to schedule that at the earliest possible time.
2. We have repeatedly asked Jeanne and Dr. Dappen about the results of the March 13 urine testing and March 17 ANA nuclear testing. We have received no response. Please advise as to the status of both of these testings, and forward the results to Lynn.
3. Also, given Ms. Kapusta's repeated complaints about her stomach hurting and the bulge in her stomach, please advise if you and the doctor will agree to the aorta and other stomach ultrasound as requested.
4. Ms. Kapusta's platelets have gone from 288 in July to 90 in March. At best, this is abnormal, at worst, it could indicate some serious problems and blood deficiencies, particularly given her history of repeated UTIs (many of which were only discovered because of Lynn's diligence) which can cause platelet damage. A blood culture is a relatively quick, outside the home of procedure that can be easily done at Quest Diagnostic or other similar facilities. And while I don't believe it can be done at home, it is no more invasive or time consuming than the testing that Elaine has been undergoing at home. Please ask Dr. Dappen to allow this to go forward, if for no other reason than to eliminate any concern about substantial loss of platelets over the last 8 months. This is unlikely to cause enormous stress to Elaine; it is simply one visit to a clinic.

5. Lastly, as you may have heard Cecilia needs to take personal time off and will not be there on Friday. Not surprisingly, Lynn and her mother did extremely well this past weekend without anyone present. It's my understanding that Cecilia's preference would be not to work at all this weekend. I ask that you again let Lynn and Elaine have this full weekend alone. If deemed necessary, Jeanne can coordinate a specific time on the weekend for an Eldertree representative to stop by.

I would appreciate your prompt response on each of these five issues. Thank you.

Subject: Better communication

George, Jeanne, and Rachelle,

Ms. Kapusta and Lynn had another very calm and peaceful 2 days alone together on Friday and Sunday, just as they did last weekend. None of that should be surprising. I hope that my communications to George last week helped correct the misunderstandings as to Ms. Kapusta's sleep cycle, her patterns of activity throughout the day, and the inaccurate belief that Ms. Kapusta is not living in a stable environment. Lynn is and has always been the person most capable of caring for her mother, and continuously does so on a daily basis.

Rather than trying to push forward with respite care based on factually erroneous information, all of us and Lynn should communicate more directly in periodic conference calls. Having a more open dialogue and mutual discussions was what was intended when all of you came into this

situation back in October. But little of that has occurred. It could alleviate many of these concerns and misunderstandings.

I'm going to send you separately a few videos showing the calm, peaceful and relaxing weekend Lynn and Elaine shared. Anyone who spends any significant time with Lynn in the home can see her conscientious love, diligence, and attentive and constant care for her mother.

Lynn continues to have significant concerns about her mother's stomach, and believes the bulge in her stomach may have grown. Elaine frequently holds her stomach and exclaims that "it hurts." Lynn strongly advocates for her mother to have complete ultrasounds of the stomach, including aorta. Please bring this to Dr. Dappen's attention ASAP, as indicated will be done in the email from Jordan below. Also, Jeanne please move forward with scheduling the dental cleaning for Elaine this week. Thanks.

Subject: RE: OT this week

Stephen,

Pursuant to your request, here is a bullet-point list touching on what we discussed over the phone today:

- George will be cancelling the OT for this week, and we will see what can be done about setting up OT appointments for later in the day for the following weeks.
- George has spoken with Jeanne Blue who will be getting a dentist appointment set up for Elaine.
- I have emailed you separately, the March 13th urine testing results and March 17th ANA nuclear testing results, as per your email requests.
- When Dr. Dappen returns to the office this next week, George will reach out to him regarding Elaine's stomach pain and the concerns over Elaine's platelets.
- As it stands now, Cecilia will be working the Saturday shifts in addition to her weekday shifts. The schedule will not be changed at this time.

If you have any other questions, please let me know.

Best,

Jordan Anderson

Subject: OT this week

George,

I am visiting Lynn and Elaine today. Elaine got up at 10 AM, and took an hour to eat. She has constantly stated over and over that “She is tired” and “wants to go back to bed.” She is leaning sideways up against the couch like she is just exhausted.

I have heard her repeatedly state she is exhausted and wants to go back to bed. I would please ask you to cancel the OT appointment today. She is likely to go back to bed and then will get up later in the afternoon intermittently, as is typical for her.

Lynn has several times notified all of you and the OT. that appointments would be far better if they could be scheduled after 2 PM. She generally has better energy level from 2 PM until the early evening as we have previously indicated. I would ask that you would cancel the 1 PM OT today, and the 1 PM OT tomorrow. If you reschedule for next week, just simply ask them to try to schedule it for 2 PM or later.

As we have also informed you, usually after OT, Elaine continues to complain that she is exhausted. And the OT is basically doing the same activities that she already does every day with Lynn and the caretakers.

I know the current action plan is to continue with OT, but I would ask that you cancel this week's appointments and set next weeks to be after 2 PM. Thanks. Please get back to us ASAP.

Re: Care Plan for Elaine Mae Kapusta

Dear Mr. Stine:

As you know Mr. Dodge has issues with Ms. Kapusta's home care situation. In his judgement, the current situation is detrimental to Ms. Kapusta's best interests. Ms. Kay has been taking Ms. Kapusta to multiple appointments which Ms. Kay set herself without the knowledge or consent of the Guardian. These appointments aggravate and cause anxiety to Ms. Kapusta as witnessed and reported by numerous doctors, care providers, and care managers. Each of these appointments conclude with Ms. Kay complaining and blaming the doctors as well as Ms. Kapusta's care team of neglect and elder abuse. Apparently, Lynn Kay cannot accept medical professionals' diagnoses and opinions. Recently, she strongly argued with Dr. Salameh and Dr. Doki over their diagnosis and recommendations.

When Ms. Kay tells Ms. Kapusta "See mom? Nobody wants to help you," or other similar statements, it is not helpful or healthy for Ms. Kapusta. How is Ms. Kapusta supposed to trust the many doctors and medical personnel who have been hired to care for her? These types of statements are harmful for Ms. Kapusta to hear and are not factual.

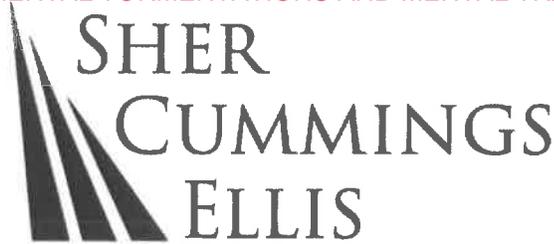

Ms. Kay's reactions increase Ms. Kapusta's anxiety as well and there has also been multiple instances in which witnesses report that Ms. Kay's conduct caused Ms. Kapusta to panic and become more confused herself. This is an unhealthy situation for Ms. Kapusta to be in. Doctors have said and continue to say that these appointments and repetitive tests are not necessary. Mr. Dodge has decided to have Ms. Kapusta moved to an assisted living facility in order for her to have uninterrupted medical care.

GEORGE W. DODGE'S CONTINUAL THREATS TO OUR LIVES, INSTEAD OF GIVING MY MOM THE PROPER MEDICAL STANDARD OF CARE IN PROVIDING DENTAL CARE AND TREATMENTS AND MEDICAL CARE AND TREATMENTSTO MY MOM

For your consideration in lieu of placement of Elaine Kapusta outside of her residence, Mr. Dodge proposes that if Lynn Kay will commit to the following conditions, Elaine Kapusta will be able to remain in her home, under the care of her usual care providers and care managers. The conditions are as follows:

1. Lynn Kay must move out of Elaine Kapusta's residence within 21 days of the date of this letter.
2. Lynn Kay is to have supervised, timed visits with Elaine Kapusta.
3. Lynn Kay is no longer allowed to stay overnight with Elaine Kapusta.
4. Lynn Kay may not set up doctor, dental, therapy, or any other appointments for Elaine Kapusta.
5. Lynn Kay may not speak about Elaine Kapusta's health status in front of her, nor can she make claims of illnesses or diseases in front of Elaine Kapusta.
6. Lynn Kay may no longer contact care managers or doctors directly. She must go through you, her attorney, for communication purposes.
7. Lynn Kay may not remove Elaine Kapusta from her home without the knowledge and consent of the Guardian, George Dodge, nor without full supervision of a care provider or care manager.
8. The cameras in the home are to be taken down and removed.

Please review these conditions with Ms. Kay and let me know if she agrees to these conditions. Should Ms. Kay turn down this offer, the Guardian shall continue with a placement of Elaine Kapusta as it is in her best interests under the totality of the circumstances.

This offer shall remain valid for 7 days from the date of this letter.

Sincerely,

Mark D. Cummings

Subject: Hematologist status follow-up

All,

I would appreciate it if Rachelle could provide a summary of her observations of the hematology consultation this past Monday, as she did after the hernia appointment. She asked me to reach out to George Dodge for such a summary, so if one of you could provide that information, that would be helpful.

After speaking with Lynn, ***I understand that the hematologist, Dr. Doki, did have some significant concerns. Elaine was found to be anemic, and he recommended iron supplements. Also, I understand from Lynn that he identified a CoQ10 deficiency, and recommended medication***

. The COQ10 medication has arrived; however, they are large, hard pills and Elaine is refusing to take them. Lynn reached out to Rachelle on Wednesday-5/24/23 and asked for confirmation if she could please buy the same CoQ10 medication but in a liquid dissolvable form which Lynn provided the Amazon link for purchase which will be much easier for her mother to take mixed in a fruit smoothie. I am not sure if that medication has been ordered, so please let us know if it has been.

Second, Lynn did receive the hematology results on or about May 18, but would like confirmation that there were no further findings or reports that were pending after that date of 5/18/23. If you could please confirm with Dr. Doki's office how many pages there were, so that we know that we have the complete 5/11/23 & 5/18/23 medical records from his consultations, that would be appreciated.

Relatedly, the doctor did discuss the results in detail with Lynn and Rachelle on Monday, but Lynn believes that the findings on the blood smear results were not discussed on Monday. We would like to know if the doctor has any additional recommendations/concerns as to the findings on the blood smear.

Next, Lynn was simply handed a copy of Elaine's UTI panel for her to view as she walked out of the office after the lab review meeting. Lynn was understandably concerned to also see two positive results stated which were never discussed during the meeting for reviewing all of Elaine's labs. Lynn then learned from Rachelle two days later, that it was being assumed that Elaine's urine sample for the UTI panel testing that Lynn brought into the doctor last week was, unfortunately, contaminated. Please ask Dr. Doki if it would be advisable for him to have another sample, since I believe he did ask for the original sample and may still wish to test another one.

Lynn and the doctor discussed his concerns regarding Elaine's lack of iron-deficiency/anemic condition and also Elaine's COQ10 deficiency. The doctor, according to Lynn, also stated that multiple myeloma would not be able to be ruled out, except for by a bone marrow sample being taken. Lynn informs me that the doctor said there were two basic options to assist the recovery of her iron depletion. One would be orally taking the iron supplements as she is doing now, the second would be an iron infusion, which is a significantly faster process, but would require some sort of calming medication for Elaine to do this as sedation would not be available, except for in a hospital setting.

***It's my understanding from Lynn that Dr. Doki decided that Elaine should have the iron supplements which is long process for restoring Elaine's iron, because he was concerned that she might not be able to sit without great anxiety for the 2-4 hours required for the iron infusion. Lynn is concerned that her mother's iron-deficiency anemia will last overall significantly longer if the slower course of just taking months of iron supplements is followed. She believes that if she were there during an iron infusion process to keep her mother calm, along**

with Elaine taking a prescribed calming medication, Lynn would be able to then keep her mother calmed, and Elaine would better handle the time that is involved for doing so. It might also be advisable for a trusted caretaker such as Juliette to also be present with Elaine during an infusion. We respectfully ask that Dr. Doki be consulted on this point as a matter of reconsideration in allowing Elaine to attempt an iron infusion in order to speed up Elaine's recovery from iron-deficiency anemia.*

It should also be noted that Lynn emailed the care team and guardians regarding iron-deficiency last October/November 2022, as she was concerned about this occurring. Given Elaine's iron deficiency and coenzyme Q10 deficiency and the other additional blood disorders, which were stated on the blood smear results, Lynn is asking if Elaine should receive any further testing in regard to these findings. Lynn would like to know if Dr. Doki recommends any additional blood testing, such as additional iron panel testing or SED rate testing for monitoring her mother's now multiple diagnosed blood disorders. In addition, Lynn is asking if/when previously an iron panel had been done prior to 5/11/23. Lynn has been asking in relation to continual anemia concerns for her mother since October 2022 and many times since then.

Lastly, it must be noted that Lynn's continual concerns for her mother's health led Lynn to, understandably, request additional proper testing to be done for all possible nutritional deficiencies, along with iron testing. This is because from mid-August 2022 -- early to mid-January 2023, Elaine barely ate or drank much of anything and lost a substantial amount of weight.

Please pass on these inquiries to the doctor. Thank you, and I look forward to seeing your summary of the visitation with Dr Doki.

5/11/23-"22 GROSSLY ABNORMAL LABS & 5 BLOOD DISORDERS, INCLUDING IRON-DEFICIENCY ANEMIA & COQ10 DEFICIENCY" MOM GREATLY SUFFERED SINCE OCTOBER 2022 WITH THE UNDIAGNOSED AND UNTREATED DENTAL GUM ABSCESS BACTERIAL BLOODSTREAM INFECTION CAUSING MOM'S 40% LOSS ON 1/25/23 OF ONCE-ENTIRELY HEALTHY PLATELETS BEING ENTIRELY DESTROYED BY UNTREATED BACTERIAL BLOODSTREAM INFCTION CONTINUALLY DSTROYING MOM'S IRON & MOM'S HEALTHY BLOODCELLS!

GEORGE W. DODGE & ELDEERTREE CRIMINAL
MEDICAL ELDER NEGLECT

Jeanne/Rachelle,

Now that Elaine has been taking the medication for the mouth abscess, has an appointment been scheduled for teeth cleaning and/or sedation Xrays? Please advise as to status, thanks.

Jeanne/George, please advise as to the status of obtaining home cleaning services.

I hope all are having an enjoyable Memorial Day weekend..

Cc: Mark D. Cummings <mcummings@sherandcummings.com>

Subject: Re: Cummings Letter re Dodge, Kapusta

There is a substantial likelihood that Ms. Kapusta will deteriorate quickly with outside care, due to the shock of this turn of events for her and her complete separation from her daughter. You're separating a mother and daughter of almost 17 years living together, despite the fact that only a few weeks ago the guardian was claiming that Ms. Kapusta was doing well at home and recommending eliminating nighttime aides. Despite our attempts to resolve this in a way that would address your primary concerns, you insist upon this traumatic and risky action. In our opinion this is in no way what is in the best interest of Elaine Kapusta.

Ms. Kay asks me to request a one-week delay in this process, and for you to take Ms. Kapusta's blood sample on or after June 12, in order to test if the anemia discovered by the hematologist has seen substantial improvement.* *Lynn has faithfully and diligently provided her mother with the iron medication for her anemia and the CoQ10 medication, both of which were only discovered by the hematologist after months of us urging the guardian and caretakers to consult with a hematologist.

Subject: Re: Cummings Letter re Dodge, Kapusta

After detailed discussion with Ms. Kay, and in order to resolve this matter, Ms. Kay would agree, in what we believe are the best interests of her mother to the following:

In exchange for Ms. Kapusta continuing to be able to reside in her lifelong home and not being removed from the home tomorrow, Ms. Kay would agree to fully comply with your demands 4, 5, 6, and 7 of your 5/24/23 letter. Ms. Kay cannot agree to the remaining four demands, as we do not believe those are in the best interest of her mother. This offer is made in good faith to resolve this matter without further recourse. I would appreciate it if you would get back to me as soon as possible.

Re: Elaine Kapusta INOVA Fairfax Visit

**MEDICAL ELDER NEGLECT
AND MEDICAL ELDER ABUSE
GRAVE INJURIES TO ELANE
MAE KAPUSTA**

Dear Ms. Kay,

Please be advised that on September 29, 2023, Elaine Kapusta sustained a fall from her bed and hit the left side of her head. The Guardian approved her transportation to INOVA Fairfax where she was monitored over the next several hours. She returned to Cobbdale around midnight on September 30, 2023.

At the hospital Mrs. Kapusta had an EKG and lab testing completed. The doctor found that an increased swelling to Mrs. Kapusta's legs is caused due to her lymphedema. Mrs. Kapusta's Lasix prescription was doubled for the following three days to help with this swelling.

Also completed at the hospital was a scan of Mrs. Kapusta's head and pelvis. According to the hospital, the head scan came back with no concerns and the pelvis scan came back okay as well.

Mrs. Kapusta is being monitored at Cobbdale assisted living and has sustained only a black eye. You will be updated should anything change.

Sincerely

Mark D. Cummings

MDC/teb

ED Provider Notes - Notes From Your Visit

Alan C Hsu at 9/29/2023 4:16 PM

INOVA EMERGENCY DEPARTMENT ATTENDING PHYSICIAN HISTORY AND PHYSICAL EXAM

Patient Name: KAPUSTA,ELAINE M
Department:FX EMERGENCY DEPT
Encounter Date: 9/29/2023
Attending Physician: Hsu, Alan C, MD

Age: 85 y.o. female
Patient Room: S 14/S 14
PCP: Lessin, Bruce Edward, MD

Diagnosis/Disposition:

Final diagnoses:

Contusion of face, initial encounter
Lymphedema

ED Disposition

ED Disposition	Condition	Date/Time	Comment
Discharge	--	Fri Sep 29, 2023 10:26 PM	Elaine M Kapusta discharge to home/self care. Condition at disposition: Stable

Follow-Up Providers (if applicable)

Lessin, Bruce Edward, MD
1313 Dolley Madison Blvd
207
Mclean VA 22101
703-821-1677

Schedule an appointment as soon as possible for a visit

New Prescriptions

FUROSEMIDE (LASIX) 20 MG TABLET Take 1 tablet (20 mg) by mouth 2 (two) times daily for 3 days

Medical Decision Making:

Pt presents s/p witnessed fall. Caretaker is endorsing subacute increase in LE edema which is present bilaterally. Pt on Eliquis. Pt on baseline O2 usage here. Intermittently confused which per caretaker at bedside is baseline as well. Contusion noted to face. CT obtained without acute traumatic abnormality. Did have episodes of intermittent agitation here necessitating medication for anxiolysis particular to obtain imaging. Given her swelling, labs were obtained, proBNP for age does not indicate CHF, did attempt to obtain duplex however patient became increasingly agitated only able to obtain right side however after discussion with her caretaker she is on anticoagulation and given subacute nature of duplex at present suspicion for DVT is low. We will give extra dose of Lasix in addition to 3 days of double her dose of Lasix. Otherwise advise close follow-up with PMD. We will plan discharge back to nursing facility.

ED Course as of 09/29/23 2333

Fri Sep 29, 2023

2120 Discussed with case manager and caretaker, given agitation here and that patient is on Eliquis, and worsenign agitation with trial of ultrasound risks of injury outweigh benefit as patient is on Eliquis. Labs not suggestive of CHF exacerbation, XR without pulmonary edema. As on lasix will give one dose here and advise doubling of dose (40 mg) x 2 days and follow up with PMD. Will plan dc back to ALF.

Discharge Instructions - Notes From Your Visit

Alan C Hsu at 9/29/2023 10:25 PM

For next 3 days double dose of Lasix to 40 mg daily (20mg in morning and evening). Return if worsening shortness of breath, chest pain, confusion, or other concerning symptoms. Apply compression stockings and keep legs elevated at night.

IF YOU DO NOT CONTINUE TO IMPROVE OR YOUR CONDITION WORSENS, PLEASE CONTACT YOUR DOCTOR OR RETURN IMMEDIATELY TO THE EMERGENCY DEPARTMENT.

OBTAINING A PRIMARY CARE APPOINTMENT

Primary care physicians (PCPs, also known as primary care doctors) are either internists or family medicine doctors. Both types of PCPs focus on health promotion, disease prevention, patient education and counseling, and treatment of acute and chronic medical conditions.

If you need a primary care doctor, please call the below number and ask who is receiving new patients.

Inova Medical Group

Telephone: 855-464-3627

Inovamedicalgroup.org

DOCTOR REFERRALS

Call **(855) 694-6682 (available 24 hours a day, 7 days a week)** if you need any further referrals and we can help you find a primary care doctor or specialist. Also, available online at: <http://inova.org/healthcare-services/>

YOUR CONTACT INFORMATION

Before leaving please check with registration to make sure we have an up-to-date contact number. You can call registration at 703-776-3114 to update your information. For questions about your hospital bill, please call 571-423-5750. For questions about your Emergency Dept Physician bill please call 1-800-355-2470.

FREE HEALTH SERVICES

If you need help with health or social services, please call 2-1-1 for a free referral to resources in your area. 2-1-1 is a free service connecting people with information on health insurance, free clinics, pregnancy, mental health, dental care, food assistance, housing, and substance abuse counseling. Also, available online at: <http://www.211virginia.org>

ORTHOPEDIC INJURY

Please know that significant injuries can exist even when an initial x-ray is read as normal or negative. This can occur because some fractures (broken bones) are not initially visible on x-rays. For this reason, close outpatient follow-up with your primary care doctor or bone specialist (orthopedist) is required.

MEDICATIONS AND FOLLOWUP

Please be aware that some prescription medications can cause drowsiness. Use caution when driving or operating machinery.

The examination and treatment you have received in our Emergency Department is provided on an emergency basis, and is not intended to be a substitute for your primary care physician. It is important that your doctor checks you again and that you report any new or remaining problems at that time.

SEDATING MEDICATIONS

Sedating medications include strong pain medications (e.g. narcotics), muscle relaxers, benzodiazepines (used for anxiety and as muscle relaxers), Benadryl/diphenhydramine and other antihistamines for allergic reactions/itching, and other medications. If you are unsure if you have received a sedating medication, please ask your physician or nurse.
If you received a sedating medication: DO NOT drive a car. DO NOT operate machinery. DO NOT perform jobs where you need to be alert.
DO NOT drink alcoholic beverages while taking this medicine.

If you get dizzy, sit or lie down at the first signs. Be careful going up and down stairs. Be extra careful to prevent falls.

Never give this medicine to others.

Keep this medicine out of reach of children.

Do not take or save old medicines. Throw them away when outdated.

Keep all medicines in a cool, dry place. DO NOT keep them in your bathroom medicine cabinet or in a cabinet above the stove.

MEDICATION REFILLS

Please be aware that we cannot refill any prescriptions through the ER. If you need further treatment from what is provided at your ER visit, please follow up with your primary care doctor or your pain management specialist.

Subject: **IMMEDIATE URGENT MEDICALLY PROPER STEPS FOR MY MOM'S HOPEFUL RECOVERY

MARK, THERE NEEDS TO BE IMMEDIATE URGENT ACTION TAKEN NOW TO BE ABLE TO HOPEFULLY RESTORE MY MOM!

"DUTY OF CARE" NOT PERFORMED IS "A BREACH OF FIDUCIARY DUTY" OF NOT ACTING IN "THE BEST INTERESTS"* *WHICH HAS OCCURRED FOR ALMOST A YEAR NOW!

A breach of fiduciary duty occurs when the fiduciary acts in his or her own self-interest rather than in the best interests of those to whom they owe the duty

Who Can Be Held Liable for

Breach of Fiduciary Duty?

<https://www.am-law.com/blog/fiduciary/who-can-be-held-liable-for-breach-of-fiduciary-duty/>

The "fiduciary" (the person with the duty) owes the "beneficiary" (the person to whom the duty is owed) THE HIGHEST DEGREE OF CARE AND DEVOTION

. This means:

THE FIDUCIARY MUST ACT WITH THE BEST INTERESTS OF THE BENEFICIARY IN MIND "AT ALL TIMES" AND MUST REFRAIN FROM TAKING ANY ACTION THAT COULD POTENTIALLY HARM THE BENEFICIARY OR THE BENEFICIARY'S INTERESTS

"BREACH OF FIDUCIARY DUTY" IS CLEARLY STATED AS "DO NO HARM AND ALWAYS SEEK THE BEST!*

THAT HAS NOT OCCURED OF DOING NO HARM. AND OF ALWAYS SEEKING THE BEST.

HARM IS STILL OCCURRING TO MY MOM IN NOT GETTING MY MOM PROPER MEDICAL EVALUATION AND PROPER MEDICAL CARE AND PROPER MEDICAL TREATMENT!

ALL MEDICATIONS NEED TO BE STOPPED, EXCEPT FOR ELIQUIS & VITAMINS, AND LAXATIVES AND SUPPOSITORIES STOPPED AND A ANTIPSYCHOTICS TO NEED TO BE IMMEDIATELY STOPPED .

EVERYTHING THAT HAS BEEN GIVEN TO MY MOM SINCE 6/6/23 HAS ENTIRELY CONTRIBUTED TO FURTHER DESTROYING MY MOM'S ONCE-HEALTHY BLOOCELLS.

STOPPING JUST 2 MEDICATIONS-(LASIX & SEROQUEL) IS JUST SIMPLY NOT GOOD ENOUGH.

,*NEED TO STOP ALL ANTIPSYCHOTICS AND NORVASC*

VIRGINIA HOSPITAL STARTED MY MOM ON IV POTASSIUM ON THE 7/1/22-2ND DAY

7/1/22-LACTATED RINGER'S INFUSION-(IV FLUIDS)-CONTINUOUS

7/1/22-6:34 PM-potassium chloride (KLOR-CON) packet 40 mEq

7/1/22-6:34 PM - thiamine mononitrate (vit B1) (VITAMIN B-1) tablet 100 mg

WHEN MOM HAD THIS 3.6 POTASSIUM LAB

7/1/22-3.6-LOWERED POTASSIUM-(20 GRAMS LASIX)-🤯

6/8/22-4.3->MOM'S HIGHEST POTASSIUM-😊

AND NOW MOM JUST IS 1/10 HIGHER THAN THAT

AND MOM NEEDS AN IRON TRANSFUSION TO PROPERLY RESTORE MY MOM'S IRON LEVELS FOR MOM'S WORST EVER 9.5 HEMOGLOBIN AND 2.76 RBC LABS

9/29/23-3.7<-GREATLY LOWERED POTASSIUM-(4 MOS "LASIX"!)-🤯🤯🤯

5/11/23-4.4->POTASSIUM-NO FUROSEMIDE-😊

11/8/22-4.8->MOM'S HIGHEST POTASSIUM-😊

<https://www.goodrx.com/amlodipine/amlodipine-side-effects>

13 Amlodipine Side Effects You Should Know About

Updated on May 8, 2023

***Swelling of the legs or ankles (edema) is one of the most common *AMLODIPINE-(NORVASC)*. side effects. *It happens because amlodipine dilates your blood vessels, which improves blood flow. But this can put pressure on smaller blood vessels (called capillaries), causing fluid to leak out into surrounding tissues.**

Subject: IMMEDIATE MEDICALLY PROPER STEPS FOR MY MOM'S HOPEFUL RECOVERY.

MARK,

IMMEDIATE MEDICALLY PROPER STEPS FOR MY MOM'S HOPEFUL RECOVERY.

1. STOP EVERYTHING, TODAY, EVERYTHING EXCEPT FOR ELIQUIS & VITAMINS
2. EMAIL ME TODAY MOM'S 10/12/23 LABS DONE BEFORE THE END OF TODAY
3. MOM URGENTLY NEEDS TO HAVE ALL OF MY SENT REQUESTED LABS DONE EITHER TODAY OR TOMORROW!

■

CRIS DIGAMO-(STAT LAB)

703-689-1585

■

4. MOM NEEDS IMMEDIATE HOSPITAL MEDICAL EVALUATION ON OR BEFORE FRIDAY AND TREATMENT FOR MY MOM RECEIVING IV NUTRIENTS OF "IV POTASSIUM" AND LIKELY ALSO AGAIN "IV MAGNESIUM" & AN I WOULD THINK WITH MOM'S SERIOUSLY LOW HEMAGLOBIN, MOM NEEDS AN "IRON INFUSION" FOR, HOPEFULLY, RESTORING MY MOM'S ONCE-HEALTHY BLOODCELLS. AND MOM LIKELY NEEDS ANTIBIOTICS, TOO.

7/4/22-LACTATED RINGER'S INFUSION-(IV FLUIDS)-CONTINUOUS

7/4/22-9:19 AM & 11:52 AM-potassium chloride (KLOR-CON) packet 40 mEq

7/4/22-9:19 AM - thiamine mononitrate (vit B1) (VITAMIN B-1) tablet 100 mg

7/4/22-11:44 AM - magnesium sulfate in D5W infusion 1 g

MOM RECEIVED THIS IN VIRGINIA HOSPITAL AND ALSO ANTIBIOTICS.

NO ANTIPSYCHOTICS.

****JUST SLEEP MEDICATION ONLY IS TO BE GIVEN TO MY MOM.****

**IMMEDIATELY MOM'S ENTIRELY TOXIC BODILY SYSTEM AND BLOOD NEEDS TO BE
MEDICALLY FLUSHED OUT AND RESTORED IMMEDIATELY FOR A HOPEFUL FULL RECOVERY!**

MEDICAL ELDER NEGLECT AND MEDICAL ELDER ABUSE

****MOM NEEDS HOSPITAL ADMISSION A.S.A.P. THIS MORNING!***

IMMEDIATE MEDICALLY PROPER STEPS FOR MY MOM'S HOPEFUL RECOVERY.-

****MOM NEEDS HOSPITAL ADMISSION THIS MORNING!***

SOMETHING IS SERIOUSLY WRONG AGAIN!

MY MOM NEEDS IMMEDIATE ANTIBIOTICS!

9/29/23-1.4-MOM'S HIGHEST EVER IMM. GRAN. %--SEPSIS

9/29/23-0.08-HIGH ABS. IMMAT. GRANULOCYTES-

1. STOP EVERYTHING, TODAY, EVERYTHING EXCEPT FOR ELIQUIS & VITAMINS

2. MOM URGENTLY NEEDS TO HAVE ALL OF MY SENT REQUESTED LABS DONE TODAY!

3. MOM NEEDS TO BE IMMEDIATELY ADMITTED TO THE HOSPITAL TODAY FOR HAVING A COMPLETE MEDICAL EVALUATION FOR MOM HAVING LABS DONE FOR DETERMINING SEPSIS BACTERIAL BLOODSTREAM INFECTION AND FOR RECEIVING IMMEDIATE MEDICAL TREATMENT FOR MY MOM RECEIVING "IV FLUIDS" & "IV NUTRIENTS/VITAMINS" OF "IV POTASSIUM" AND LIKELY ALSO AGAIN "IV MAGNESIUM" & B1, B6 & B9 & AND MOST DEFINITELY BASED ON MOM BEING SO DANGEROUSLY ANEMIC NOW MOM NEEDS AN "IRON INFUSION" BUT GET MOM'S IRON PANEL TESTED 1ST FOR, OUR HOPEFULLY, STILL BEING ABLE TO RESTORE MY MOM'S ONCE-HEALTHY BLOOD. AND MOM NEEDS ANTIBIOTICS, TOO, AS INFECTIOUS TOXINS, BASED ON MOM'S 9/29/23 LABS, ARE ENTIRELY RAGING AGAIN INSIDE MY MOM'S BLOODSTREAM DESTROYING HER BONE MARROW.

WHETHER SHE HAS HEMOLYTIC ANEMIA ALSO NEEDS TO BE ENTIRELY RULED OUT IMMEDIATELY.

MY MOM HAS 40% LESS HEALTHY BLOODCELLS IN HER BODY THAN JUST 1 YEAR AGO!

THINK ABOUT THAT!

MOM WAS FUNCTIONAL AND HAPPY 1 YEAR AGO!

THINK ABOUT SOMEONE STEALING ALMOST 1/2 OF YOUR BLOOD FROM YOUR BODY. COULD YOU FUNCTION PROPERLY? OR WOULD YOU ALSO BE A MUMBLING VEGETABLE LIKE MOM IS NOW FROM EVERYONE IGNORING ALL OF THE "BURNING ON FIRE RED FLAGS" THAT I HAVE BEEN SCREAMING ABOUT FOR MY MOM GETTING HELP FOR ALMOST A YEAR NOW?

DO YOU UNDERSTAND WHAT MOM HAVING 40% LESS OF HER BLOODCELLS MEANS? MY MOM IS IN SERIOUS DANGER RIGHT NOW!

MOM'S BONE MARROW IS GREATLY DAMAGED FROM ALL OF MY MOM'S ENTIRELY IGNORED/DISREGARDED CONTINUALLY LONG-SUFFERED BACTERIAL BLOODSTREAM INFECTIONS AS I HAVE BEEN SCREAMING TO EVERYONE SINCE NOVEMBER & DECEMBER 2022!

AND THIS IS EXACTLY WHY IT WAS SO VERY IMPORTANT ON 1/28/23 FOR MY MOM TO IMMEDIATELY HAVE BEEN REFERRED IMMEDIATELY TO A QUALIFIED HEMATOLOGIST AND FOR GETTING MEDICALLY PROPER LAB TESTS CHECKING IRON DEFICIENCY PANEL AND VITAMIN DEFICIENCY PANEL AND IMMUNOLOGY DEFICIENCY PANEL AS I HAD STATED NEEDED TO OCCUR WITH MY TEXTS TO BOTH STEVE AND ELDERTREE AND IT WAS IGNORED UNTIL DOKI-5/11/23-"22 ABNORMAL LABS & 5 BLOOD DISORDERS"

MY MOM'S LIFE WOULD NOT HAD BEEN IN SO MUCH DANGER RIGHT NOW IF THAT HAD OCCURRED IN

FEBRUARY 2023 AS I HAD REQUESTED TO BE DONE.

NOT DOING SO WAS SUCH A BLATANT ACT OF MEDICAL NEGLECT IN ONCE-AGAIN ENTIRELY "WITHHOLDING MEDICAL CARE AND MEDICAL TREATMENT" FOR MY CONTINUALLY SUFFERING AND SCARED MOM.

IMMEDIATE MEDICAL CARE AND MEDICAL TREATMENT FOR MY MOM IS IMMEDIATELY NEEDED TODAY!

WHEN 3 HYPOXIA-(LOW OXYGEN) OCCURRENCES ON 1/25/23, 2/14/23-(911 CALL) & 3/9/23-(911 CALL) OCCURRED WITH MOM ALL 3 TIMES BEING IN A STRANGE COMALIKE STATE, NOT GASPING FOR AIR JUST LIKE SHE WENT UNCONSCIENCE AND NOT AT ALL BEING ABLE TO RESPOND.

HOW MANY REDFLAGS NEED TO OCCUR FOR EVERYONE TO FINALLY TAKE MY MOM'S GREATLY DETERIORATING BLOOD HEALTH ISSUES SERIOUS?

A HEALTHY NORMAL PERSON'S BLOOD DOES NOT GO FROM ALMOST ENTIRELY HEALTHY LIKE MINE TO SUDDENLY THROMBOCYTOPENIA-(LOW PLATELETS) AND PROGRESSIVELY WORSENERD EACH TIME WITH LOWER PLATELETS OCCURRING TO NOW MOM HAVING SEVERE ANEMIA AND FATIGUED WITHOUT THERE BEING A SERIOUS REASON AS TO WHY. **(DISEASE & INFECTION IS WHY)!**

HAS ABSOLUTELY EVERYONE JUST COMPLETELY LOST THEIR MINDS?

MOM NEEDS IMMEDIATE "EMERGENT" MEDICAL CARE NOW!

SHE WILL NOT SURVIVE THIS INTACT IF SHE DOES NOT GO IMMEDIATELY TO INOVA OR VIRGINIA HOSPITAL IMMEDIATELY IN THE MORNING A.S.A.P. TODAY TO GET IMMEDIATE PROPER MEDICAL EVALUATION FOR SEPSIS TO GET IMMEDIATE HELP.

ARE YOU AWARE THAT SEPSIS CAUSES CONFUSIONAL DELIRIUM?

Sepsis-associated delirium (SAD) is a cerebral manifestation commonly occurring in patients with sepsis and is thought to occur due to a combination of neuroinflammation and disturbances in cerebral perfusion, the blood brain barrier (BBB) and neurotransmission.

ARE YOU AWARE THAT SEPSIS CAUSES ANEMIA?

Anemia is a common feature during sepsis that occurs due to iatrogenic blood loss, depression of serum iron levels and erythropoietin production, and a decreased lifespan of erythrocytes.

IN ADDITION TO FUROSEMIDE & ANTIPSYCHOTICS ALSO CAUSING DRUG-INDUCED CONFUSIONAL DELIRIUM.

ARE YOU AWARE THAT ANEMIA CAUSES MENTAL CONFUSION?

People age 65 and older: People over 65 are more likely to have iron-poor diets and certain chronic diseases that increase their risk of developing anemia. If they develop anemia, they may have heart conditions or weakness that makes it hard for them to get around. They may have confusion or depression.

ARE YOU AWARE THAT ORGANS SHUTDOWN WITH UNTREATED BACTERIAL BLOODSTREAM INFECTIONS/SEPSIS WITHOUT RECEIVING ANTIBIOTICS?

Septic shock is a serious medical condition that can occur when an infection in your body causes extremely low blood pressure and organ failure due to sepsis. Septic shock is life-threatening and requires immediate medical treatment. It's the most severe stage of sepsis. Jun 14, 2022

INDICATIONS THAT MOM'S LIVER IS ALREADY BEING AFFECTED NOW, TOO. THIS IS MOM'S HIGHEST EVER ALT.

9/29/23-20->MOM'S HIGHEST EVER ALT-(LIVER DAMAGE!)-DUE TO INFECTION & LASIX-🤔🤔

83-ALK PHOSP

JUST LIKE WHAT BEGAN OCCURRING ON DAY 2 FROM VIRGINIA HOSPITAL ENTIRELY FAILING TO GIVE MOM ANY ANTIBIOTICS FOR 8 DAYS AFTER MOM HAVING BEEN

ADMITTED. MY MOM LANGUISHED AND GREATLY SUFFERED WITHOUT RECEIVING ANTIBIOTICS.

=====

**RAPID RESPONSE TEAM NURSE-(VIRGINIA HOSPITAL):
7/9/22-12:12 AM

GRANULOCYTES- 😱-(VIRGINIA HOSPITAL)**

=====

7/1/22-0.11-MOM'S 2ND HIGHEST IMM. GRANULOCYTES

=====

**9/29/23-0.08-HIGH ABS. IMMAT.
GRANULOCYTES- 😱**

=====

**9/29/23-1.4-MOM'S HIGHEST EVER IMM.
GRAN. %- 😱-SEPSIS**

**High immature granulocyte levels can be a sign of a
problem with your bone marrow, infections, allergic
reactions, or **inflammation from an underlying health
condition****

Immature granulocytes are white blood cells that are immature. Small amounts of white blood cells may be present on a complete blood count test whether or not you have an infection although *healthy people do not show immature granulocytes on their blood test report*.

whenever your body is *fighting an infection*, it will increase its white blood cell count, and more of the white blood cells will be immature.

A high granulocyte count (granulocytosis) could indicate a number of issues, including infection, blood cell cancer or some type of autoimmune disease. Bone marrow conditions are also a primary cause of granulocytosis.Nov 5, 2021

What does it mean when your granulocytes are high? If your granulocyte count is high, it usually indicates infection. Other conditions closely associated with granulocytosis include autoimmune diseases (such as rheumatoid arthritis) and bone marrow conditions (such as chronic myeloid leukemia [CML]).Jan 21, 2022

Granulocytosis and chronic myeloid leukemia (CML)

Granulocytosis is the main feature of CML, a rare blood cell cancer that begins in the bone marrow. CML causes a buildup of underdeveloped granulocytes in the bone marrow and bloodstream. Normally, bone marrow produces immature stem cells in a controlled way.

These causes of increased granulocytes include:

Inflammatory diseases such as vasculitis, affecting the blood vessels⁷.

Viral or bacterial infections, such as tuberculosis⁸.

Sepsis, a severe reaction to a blood infection⁹.

Autoimmune diseases, such as rheumatoid arthritis.

Bone marrow disorders.

Cancer.

May 5, 2023

What causes granulocytosis?

Granulocytosis may be caused by **bone marrow disorders****, and may also be seen ****in conjunction with infections and autoimmune disorders****. Most commonly, granulocytosis is caused by bone marrow disorders which cause the number of granulocytes produced in the marrow to increase.**

REQUEST THAT THE HOSPITAL DO PTT TO TEST FOR SEPSIS & D-DIMER AND NT PRO-BNP, SED RATE & C-REACTIVE. SAME AS VIRGINIA HOSPITAL DID.

AND IMMUNOGLOBULIN PANEL & IRON PANEL & VITAMIN DEFICIENCY TESTING AND REQUEST TESTING FOR RULING

**OUT BACTERIAL BLOODSTREAM INFECTION/SEPSIS
BECAUSE:**

**MOM'S 9/29/23 LAB VALUES MATCH 6/30/22-7/11/22
WHERE MOM WAS HOSPITALIZED AT VIRGINIA HOSPITAL
FOR 2 WEEKS!**

MY MOM NEEDS IMMEDIATE ANTIBIOTICS!

**4. AND I AM CONTINUING TO ASK FOR YOU TO PLEASE
EMAIL ME TODAY MY MOM'S 10/12/23 LABS, BEFORE THE
END OF TODAY**

3.

Sent from my Verizon, Samsung Galaxy smartphone

11/1/23-I REVIEWED MOM'S LABS & I DEMANDED HOSPITAL EVALUATION & NO ONE CARED OVER 14 MONTHS AGO AND DR. DAPPEN, JEANNE BLUE, GEORGE W. DODGE, STEPHEN HALL AND ALL INCOMPETENT AND INHUMANE FIDUCIARIES SINCE 2022 HAS CONCEALED ALL OF THIS SINCE 2022 BEING INFORMED IN OCTOBER 2022 IN NOT 1 FIDUCIARY EVER "SEEKING MY MOM'S BEST INTEREST FOR FULL HEALTH RESTORATION!"

MOM WAS DENIED ALL DENTAL AND MEDICAL CARE SINCE 2022 & 2023 & 2024

9/20/22-8/1/24-(2 DENTAL CLEANINGS WHILE DENTAL GUM ABSCESS UNTREATED)

IMMEDIATELY ADMIT MY MOM INTO VIRGINIA HOSPITAL CENTER OR INOVA VIRGINIA HOSPITAL-10/12/23-MOM'S Lab Results and I NEED MOM'S NOVEMBER 2023 Medications Update LIST

Cummings <mcummings@sherandcummings.com>, SCE Legal Assistant <legalassistant@sherandcummings.com>, lynnkay7@gmail.com <lynnkay7@gmail.com>

PLEASE DO NOT KILL MY MOM!

GET MY MOM ADMITTED TO THE HOSPITAL TODAY/TOMORROW!

IMMEDIATELY ADMIT MY MOM INTO VIRGINIA HOSPITAL CENTER-(ARLINGTON) OR INOVA

**VIRGINIA HOSPITAL-(FAIRFAX)-TODAY
IMMEDIATELY MOM IS SEVERELY ANEMIC AND
BECOMING SO MUCH WORSE**

**MY MOM'S BONE MARROW AND BLOODCELLS HAVE
BEEN DESTROYED!**

**MOM NEEDS IMMEDIATE HOSPITAL EVALUATION
TODAY OR TOMORROW**

**BEST WOULD BE TO GO TO VIRGINIA HOSPITAL
CENTER CLOSE TO OUR HOME**

10/12/23-MOM'S Lab Results and I NEED MOM'S
NOVEMBER 2023 Medications Update LIST

MARK, THANK YOU SO MUCH FOR GIVING MY MOM A CHANCE TO,
HOPEFULLY, BEGIN THE LONG JOURNEY OF HEALTH RECOVERY TO
HOPEFULLY HAVE A CLEAR MIND AND TO HOPEFULLY ENTIRELY
RESTORE MY MOM'S LIFE.

**"TOXIC ACUTE METABOLIC ENCEHALOPATHY IS
EXTREMELY DANGEROUS" AND ANTIPSYCHOTICS
FURTHER DESTROY THE MIND AS I HAVE SAID FOR
MULTIPE MONTHS NOW.**

THIS IS WHAT ALSO ENTIRELY OCCURRED FROM 1 1/2 MONTHS OF SHIFFLETT IGNORING MY MOM'S HEALTH ALSO WITH MY BEGGING FOR HER TO ALSO IMMEDIATELY GET MY MOM "EMERGENT CARE" ON 6/2/22-6/30/22 AFTER SHE IGNORED MY 1 1/2 MONTHS OF HER ALSO BEING INFORMED BY ME SINCE 5/18/22.

MY MOM HAS GREATLY SUFFERED UNDER EVERY SINGLE PERSON NOT TREATING MY MOM LIKE A NORMAL PERSON WHO IS PHYSICALLY SICK.

PLEASE PLEASE IMMEDIATELY REMOVE MY MOM FROM NORVASC & ALL DAILY LAXATIVE AND ALL DAILY SUPPOSITORIES

THESE LAST ALMOST 5 MONTHS HAVE ENTIRELY DESTROYED MY MOM.

MY MOM IS NOW ON THE VERGE OF NEEDING A BLOOD TRANSFUSION

PLEASE IMMEDIATELY TAKE MY MOM TO THE VIRGINIA HOSPITAL CENTER TODAY OR TOMORROW. I AM A MATCH FOR BLOOD TRANSFUSION AS I STATED MONTHS AGO.

MOM AGAIN NEEDS "IV FLUIDS" TO HELP TO ENTIRELY FLUSHOUT 4+ MONTHS OF BLOOD TOXICITY AND POSSIBLY IV POTASSIUM THOUGHDEFINITELY BETTER THAN 9/29/23-(3.7) NOW THAT FUROSEMIDE WAS DISCONTINUED AND GOOD TO SEE THAT MOM'S GLUCOSE AND LIVER ARE ALSO DOING BETTER AFTER FUROSEMIDE. AND LIKELY ALSO IV MAGNESIUM AGAIN AND MOM NEEDS B1, TOO AND IF NOT MY BLOOD TRANSFUSION, THEN DEFINITELY MY MOM NEEDS AN IMMEDIATE IRON TRANSFUSION.

REMOVE MY MOM FROM B12. HAS BEEN DANGEROUSLY HIGH B12 CONTINUOUSLY FOR ALMOST A YEAR WHICH SHOWING INFECTIONAL ISSUES.

PLEASE GET MY MOM PROPER MEDICAL CARE IMMEDIATELY AT THE HOSPITAL.

MOM'S HEALTH RESTORATION IS OF UTMOST IMPORTANCE RIGHT NOW TO RESTORE AN ENTIRE 1 1/2 YEARS OF MOM'S CONTINUAL MEDICAL ELDER NEGLECT AND MEDICAL ELDER MEDICATION ABUSE.

SEVERE ANEMIA IS DEADLY TO THE BODY, HEART AND MIND-(BRAIN DAMAGE).

MY MOM WAS ONLY ON ELIQUIS & VITAMINS.

MOM NEEDS A COMPLETE IRON PANEL & A COMPLETE IMMUNODEFICIENCY PANEL AND A COMPLETE VITAMIN PANEL SO WE CAN RESTORE MY MOM'S HEALTH IMMEDIATELY!

PLEASE PLEASE LISTEN TO ME!

I KNOW WHAT I AM TALKING ABOUT AS I ENTIRELY RESTORED MY MOM'S 4 ENTIRELY DYSFUNCTIONAL BODILY FUNCTIONS IN OCTOBER

2022-MAY 2023 AND ALL 4 PARAGON AIDES WILL TESTIFY AS TO THIS BEING ENTIRELY TRUE AS I AM THE SOLE PERSON WHO KNOWS EVERYTHING ABOUT MY MOM.

POOPING ONCE/MO TO 12 TIMES/MONTH

PEEING DARK BROWN TOXIC URINE TO LIGHT PALE YELLOW

SELF-STARVATION TO 3 MEALS/DAY

MOM DRINKING AND EATING VERY LITTLE-(LOSING 45 LBS)-
SEPTEMBER 2022-DECEMBER-(4 MONTHS) DUE TO BEING SCARED
WITH BEING FORCED TO CONSUME 800 CRUSHED PILLS IN 2
MONTHS-(AUGUST, SEPTEMBER), INCLUDING DANGEROUS
ANTIPSYCHOTICS IN A "TOXIC DRUG SLUDGE" WHEN MOM WAS
TAKING PREVIOUS ON 200 PILLS IN 2 MONTHS PRIOR TO 7/14/22-
"24/7 FORCED HOME INVASION"

**PLEASE MOM NEEDS PROPER MEDICAL CARE AND
PROPER MEDICAL TREATMENT IMMEDIATELY.**

POSSIBLY A UROLOGIST, NEEDED TOO. NOT SURE.

MARK, PLEASE CALL ME.

Ms. Kay,

Please see attached labs, which we just received. Please be advised that Mrs. Kapusta was taken off of Zyprexa as of today, though we do not have an updated medications list reflecting this change as it takes time to obtain an updated list. Finally, Mrs. Kapusta will soon be meeting with a hematologist as well as a dentist, though no firm appointment has been scheduled yet.

Best regards,

Taylor Byrd

MOM NEEDS IMMEDIATE ANTIBIOTICS!.⁸

HAS MY MOM EVER BEEN GIVEN ANY ANTIBIOTICS AT COBBDALE & WHEN-WHAT DATES?

TODAY-IMMEDIATELY ADMIT MY MOM INTO **VIRGINIA HOSPITAL CENTER-**

(*ARLINGTON*)-CLOSE TO OUR HOME, NOT INOVA!!-AND MOM NEEDS TO BE IMMEDIATELY &

****PERMANENTLY DISCHARGE MOM FROM COBBDALE, MOM NEEDS TO COME HOME AFTER HOSPITAL!!*****

Why does anemia cause strokes?

These risk factors could possibly be a cause of stroke in the adult population as well. Cases of carotid thrombus associated with iron deficiency anemia and thrombocytosis have been reported in adults. One reason is due to an anemic patient needing more blood flow to the brain to compensate for the lack of oxygen.

MOM NEEDS AN IMMEDIATE HOSPITAL EVALUATION & IRON INFUSION & MY BLOOD TRANSFUSION-I AM READY, WILLING AND ABLE AND HEALTHY AND SAFE WITH

****MY O POSITIVE BLOOD** &**

AS FAR AS I KNOW

****MOM HAS "A POSITIVE BLOOD"**

I DID NOT REALIZE MOM HAD ANOTHER BLOOD DRAW ON 10/12/23 & ON 10/26/23-THIS IS SO MUCH WORSE!**

What happens if anemia gets too severe?

Adults with severe anaemia may be at risk of developing complications that affect their heart or lungs. For example, you may develop tachycardia,

which is an abnormally fast heartbeat, or heart failure, where the heart fails to pump enough blood around your body at the right pressure. Mar 10, 2023

Telephone Encounter - Notes From Your Visit

[Adriana G at 11/21/2023 3:16 PM](#)

Pt has been scheduled with Dr. Ershler at ISCI FX on 12/26. Jean Blue will be coming with pt as well as an aid. She is aware of the location of the clinic. Let her know she can call me at anytime in case any questions arise.

[Adriana G at 11/21/2023 2:55 PM](#)

Called Jean Blue to schedule pt appt. She did not answer, left a detailed vm to call back at earliest convenience.

[Adriana G at 11/21/2023 11:49 AM](#)

Spoke with Jean Blue from Elder tree let her know that I received the 2 most recent labs that she dropped off but we still need 2 most recent office notes. Let her know that I reached out to Dr. Dappen's office again and left the nurse manager a message to have them sent over.

[Adriana G at 11/17/2023 3:25 PM](#)

Called Jean in regards to records for pt. She stated she will drop it off herself to our ISCI FX office on Monday.

[Adriana G at 11/13/2023 1:27 PM](#)

Spoke to Jean Blue who is a coordinator at Elder tree and let her know that records have not been sent yet. Called provider's office again and was told they would send it soon.

[Adriana G at 11/2/2023 8:48 AM](#)

Spoke with Jean Blue from Eldertree. She stated that pt needs a new pt appt and is being referred by Dr. Dappen Alan for anemia. Called referring provider's office and requested records. Was told they would sent it right away.

11/28/23-EVERY FIDUCIARY AND PHILIP KAPUSTA INFORMED OF ENDANGERING MY MOM AND NOT 1 SINGLE PERSON CARED, THAT MOM WAS SUFFERING, BUT ME!

10/18/23-📧-🔫-IRON INFUSION & HOSPITAL EVALUATION REQUESTED & ENTIRELY IGNORED-IMMEDIATE URGENT MEDICALLY PROPER STEPS FOR MY MOM'S HOPEFUL RECOVERY.**

**Subject: **IMMEDIATE URGENT MEDICALLY PROPER
STEPS FOR MY MOM'S HOPEFUL RECOVERY**

***MARK, THERE NEEDS TO BE IMMEDIATE URGENT ACTION TAKEN NOW TO BE
ABLE TO HOPEFULLY RESTORE MY MOM!***

***"DUTY OF CARE" NOT PERFORMED IS "A BREACH OF FIDUCIARY DUTY" OF
NOT ACTING IN "THE BEST INTERESTS"* *WHICH HAS OCCURRED FOR
ALMOST A YEAR NOW!***

***A breach of fiduciary duty occurs when the fiduciary acts in his or her own self-
interest rather than in the best interests of those to whom they owe the duty***

Who Can Be Held Liable for Breach of Fiduciary Duty?

<https://www.am-law.com/blog/fiduciary/who-can-be-held-liable-for-breach-of-fiduciary-duty/>

The "fiduciary" (the person with the duty) owes the "beneficiary" (the person to whom the duty is owed) THE HIGHEST DEGREE OF CARE AND DEVOTION

. This means:

THE FIDUCIARY MUST ACT WITH THE BEST INTERESTS OF THE BENEFICIARY IN MIND "AT ALL TIMES" AND MUST REFRAIN FROM TAKING ANY ACTION THAT COULD POTENTIALLY HARM THE BENEFICARY OR THE BENEFICIARY'S INTERESTS

"BREACH OF FIDUCIARY DUTY" IS CLEARLY STATED AS "DO NO HARM AND ALWAYS SEEK THE BEST!*

THAT HAS NOT OCCURED OF DOING NO HARM. AND OF ALWAYS SEEKING THE BEST.

HARM IS STILL OCCURRING TO MY MOM IN NOT GETTING MY MOM PROPER MEDICAL EVALUATION AND PROPER MEDICAL CARE AND PROPER MEDICAL TREATMENT!

ALL MEDICATIONS NEED TO BE STOPPED, EXCEPT FOR ELIQUIS & VITAMINS, AND LAXATIVES AND SUPPOSITORIES STOPPED AND A ANTIPSYCHOTICS TO NEED TO BE IMMEDIATELY STOPPED .

EVERYTHING THAT HAS BEEN GIVEN TO MY MOM SINCE 6/6/23 HAS ENTIRELY CONTRIBUTED TO FURTHER DESTROYING MY MOM'S ONCE-HEALTHY BLOOCELLS.

STOPPING JUST 2 MEDICATIONS-(LASIX & SEROQUEL) IS JUST SIMPLY NOT GOOD ENOUGH.

,*NEED TO STOP ALL ANTIPSYCHOTICS AND NORVASC*

VIRGINIA HOSPITAL STARTED MY MOM ON IV POTASSIUM ON THE 7/1/22-2ND DAY

7/1/22-LACTATED RINGER'S INFUSION-(IV FLUIDS)-CONTINUOUS

7/1/22-6:34 PM-potassium chloride (KLOR-CON) packet 40 mEq

7/1/22-6:34 PM - thiamine mononitrate (vit B1) (VITAMIN B-1) tablet 100 mg

WHEN MOM HAD THIS 3.6 POTASSIUM LAB

7/1/22-3.6-LOWERED POTASSIUM-(20 GRAMS LASIX)-

6/8/22-4.3->MOM'S HIGHEST POTASSIUM-

AND NOW MOM JUST IS 1/10 HIGHER THAN THAT

AND MOM NEEDS AN IRON TRANSFUSION TO PROPERLY RESTORE MY MOM'S IRON LEVELS FOR MOM'S WORST EVER 9.5 HEMOGLOBIN AND 2.76 RBC LABS

9/29/23-3.7<-GREATLY LOWERED POTASSIUM-(4 MOS "LASIX"!) -

5/11/23-4.4->POTASSIUM-NO FUROSEMIDE-

11/8/22-4.8->MOM'S HIGHEST POTASSIUM-

<https://www.goodrx.com/amlodipine/amlodipine-side-effects>

13 Amlodipine Side Effects You Should Know About

Updated on May 8, 2023

***Swelling of the legs or ankles (edema) is one of the most common *AMLODIPINE-(NORVASC)*. side effects. *It happens because amlodipine dilates your blood vessels, which improves blood flow. But this can put pressure on smaller blood vessels (called capillaries), causing fluid to leak out into surrounding tissues.**

Dear Ms. Kay,

Neither of us are you're Mom's physician. I'll pass your request on to Mr. Dodge who you have already copied on this but I doubt the Doctor will stop everything now. We have requested some medical information and will forward to you I'll ask Mr. Dodge if the Doctor will share the labs from Oct. 12 lab results. You have copied Mr. Dodge on all your requests so he had your request No. 3 as well. I reported to you that the Doctor took her off two medications that had previously been concerned about.

Sincerely,

Mark D. Cummings

LYNN KAY? <lynnkay7@gmail.com>**

**Subject: IMMEDIATE MEDICALLY PROPER STEPS FOR MY
MOM'S HOPEFUL RECOVERY.**

MARK,

IMMEDIATE MEDICALLY PROPER STEPS FOR MY MOM'S HOPEFUL RECOVERY.

1. STOP EVERYTHING, TODAY, EVERYTHING EXCEPT FOR ELIQUIS & VITAMINS
2. EMAIL ME TODAY MOM'S 10/12/23 LABS DONE BEFORE THE END OF TODAY
3. MOM URGENTLY NEEDS TO HAVE ALL OF MY SENT REQUESTED LABS DONE EITHER TODAY OR TOMORROW!

■

CRIS DIGAMO-(STAT LAB)

703-689-1585

■

4. MOM NEEDS IMMEDIATE HOSPITAL MEDICAL EVALUATION ON OR BEFORE FRIDAY AND TREATMENT FOR MY MOM RECEIVING IV NUTRIENTS OF "IV POTASSIUM" AND LIKELY ALSO AGAIN "IV MAGNESIUM" & AN I WOULD THINK WITH MOM'S SERIOUSLY LOW HEMAGLOBIN, MOM NEEDS AN "IRON INFUSION" FOR, HOPEFULLY, RESTORING MY MOM'S ONCE-HEALTHY BLOODCELLS. AND MOM LIKELY NEEDS ANTIBIOTICS, TOO.

7/4/22-LACTATED RINGER'S INFUSION-(IV FLUIDS)-CONTINUOUS

7/4/22-9:19 AM & 11:52 AM-potassium chloride (K-LOR-CON) packet 40 mEq

7/4/22-9:19 AM - thiamine mononitrate (vit B1) (VITAMIN B-1) tablet 100 mg

7/4/22-11:44 AM - magnesium sulfate in D5W infusion 1 g

MOM RECEIVED THIS IN VIRGINIA HOSPITAL AND ALSO ANTIBIOTICS.

NO ANTIPSYCHOTICS.

****JUST SLEEP MEDICATION ONLY IS TO BE GIVEN TO MY MOM.****

IMMEDIATELY MOM'S ENTIRELY TOXIC BODILY SYSTEM AND BLOOD NEEDS TO BE MEDICALLY FLUSHED OUT AND RESTORED IMMEDIATELY FOR A HOPEFUL FULL RECOVERY!

In addition, I request that my mom finally be medically properly evaluated for all vitamin deficiencies with my mom having not only a complete vitamin panel done, along with a Complete Iron Panel done and for evaluating for an infection and blood cancer and for all Immunodeficiencies in the Virginia Hospital-(Arlington) immediately to occur to finally allow my mom to receive the proper Standard of Care Medical Care and medical treatment for my mom's health to be entirely restored.

And I also respectfully request that my mom is returned home permanently for her complete recovery after blood transfusion being discharged with mom also receiving IV FLUIDS and IV NUTRIENTS for her hopeful complete restoration without needing any antipsychotics or laxatives or suppositories and the like of which all deleterious and dangerous medication was only given at Cobbdale which has entirely caused so very much Injury, Illness, Disease and Infection to my mom without my solely caring for my mom.

I also respectfully ask that the Court order "The Estate" to pay for Dr. Franco Musio-(Medical Expert Witness) to be hired immediately by "The Estate" to comprehensively evaluate all of my mom's 1 1/2 years of her medical labs to tell the entire story of everyone's "Medical Neglect" from "Shifflett" medical neglect causing my mom to become so gravely ill prior to 6/30/22 Virginia Hospital, including my mom wrongly not receiving any Antibiotics for 8 days after 6/30/22 Virginia Hospital Admission and then also from 9/27/22-present day 10/26/23 labs of my mom losing 52% of her once-healthy 2022 blood cells and bone marrow being destroyed by untreated and ignored bacterial bloodstream infections causing anemia with the destruction of her once-healthy blood cells after suffering through her 2nd bacterial bloodstream infection on 8/11/22 and then her 3rd on 10/7/22 when "Dappen", "Dodge" and "Eldertree" also then continued "Medically Neglecting" my mom.

And documenting how after 10/24/22, "Dappen", "Dodge" & "Eldertree" all medically neglected my mom by giving absolutely no Proper Standard of Medical Care and Treatment and entirely withheld all needed dental and medical appointments and proper labs and proper treatment and gave dangerous FDA-BLACK-BOXED unapproved medications and all of the other extremely harmful wrongly prescribed medications and refusing for 5 months to do anything medically proper for my mom after 5/11/23 having brought my mom to the sickest that my mom has ever been.

I request that the Court order that all of my mom's medical information of all Cobbdale Medication Lists and Paragon daily notes and Cobbdale daily notes and any and all recent November and December labs having been done be immediately provided to me today as my mom's medical information has been withheld from me continually since 6/6/23.

"Dappen", "Dodge, and "Eldertree" medical elder neglect of my mom has entirely destroyed my mom and my mom has been entirely refused to be allowed for her to have any proper medical care for more than an entire year of withholding medical care in none of them ever seeking my mom's "Best Interests" for medically properly caring for my "infectious" and "Severely Anemic" mom which has so very uncaringly and so inhumanely being allowed to occur has as a direct result caused my mom to have an entirely destroyed immune system which has as a direct result now caused my mom to suffer multiple weeks from an entirely ignored "upper respiratory infection" simply because they all did not give my mom any Proper Medical Standard of Care since October 2022.

● -5-8-23-DENTAL GUM ABSCESS BACTERIAL BLOODSTREAM
INFECTION-FOLLOWUP TREATMENT STILL NEEDED SINCE 5-8-23-Referral
and Clinical Notes Elaine Kapusta.PDF

Per our telephone conversation today, attached is a copy of your mom's, Elaine's clinical notes for date of service 5/8/2023. Also attached are two referrals to 2 potential offices that can help your mom. They Meyer clinic will probably be able to help with the lower possible infection she may have in the lower jaw, more immediately. The reality is that she needs to be assessed by a general dentist but more than likely with possible sedation and that is the other referral I've included in this email.

I hope this is helpful to you. Have a great rest of your day.

Re: Elaine Kapusta

Dear Mr. Burton:

Please find enclosed a copy of Elaine Kapusta's medication lists for November 1, 2023, December 1, 2023, and January 1, 2024, as requested by your client. A dental appointment has been set for Elaine Kapusta for Tuesday, January 30, 2024.

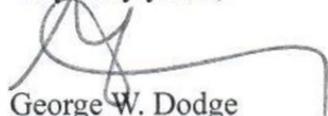

Regarding the email you sent me dated January 18, 2024, please tell your client that Ms. Kapusta has not had Covid since her admittance at Cobbdale Assisted Living Facility. In December 2023 Mrs. Kapusta had a cold including a cough from which she has since recovered from. If at any time Ms. Kapusta is diagnosed with Covid, I would consider it a change of condition and Lynn Kay and Philip Kapusta would be notified of such.

Pursuant to your client's questions in her email dated January 19, 2024, Ms. Kapusta has not been given any antibiotics upon her admission to Cobbdale Assisted Living, as she has not had any bacterial infections. Ms. Kapusta was administered the updated Covid and flu vaccinations on November 7, 2023.

Ms. Kay has indicated that she has set up weekly appointments for Ms. Kapusta. I did not authorize Lynn Kay to set up appointments. Accordingly, Ms. Kapusta will not be attending these unauthorized appointments. Please make it clear to Ms. Kay that she does not have authority or permission to set up appointments for Ms. Kapusta.

Ms. Kay has been requesting a phone call between you, her, and myself. Please let me know what times you both are available. I suggest February 6, 2024, following the monthly phone call between Ms. Kay and Ms. Kapusta. In closing, I have received direct emails from Ms. Kay on January 10, 2024, January 18, 2024, and January 19, 2024. Please advise your client once more to stop emailing me directly.

Very truly yours,

George W. Dodge
Guardian of Elaine M. Kapusta.

2 TIMES DOCTORS ORDERS DEFIED AND IGNORED

Date	Tooth	Surface	Description	Stat
5/8/2023			Clinical Note Pt presented today for prophyl/radiographs/exam extremely agitated, frightened and uncooperative. Daughter and case worker came in to the room with her, unable to calm her down. Very brief exam revealed a fistula #25 lingual. Dr Michael wrote Rx for abx and referred to a sedation dentist for comprehensive eval and treatment.	
5/8/2023			Megan Donnelly RDH Office visit for observation	C

NO DENTAL CARE HAS BEEN GIVEN TO MY MOM SINCE DENTAL X-RAYS IN 3/2/22-8/1/24= 883 DAYS

NO DR. ORDERED QUARTERLY DENTAL CLEANING HAS BEEN GIVEN TO MY MOM WHILE SUFFERING THE ENTIRE TIME SINCE 9/20/22-8/1/24=681 DAYS

AND WHAT OCCURRED AS A RESULT OF MULTIPLE UNTREATED DENTAL GUM ABSCESSSES CONTINUING, SEPSIS ONGOING DESTROYING 50% BLOODCELLS, 40% PLATELETS AND 80% IMMUNE SYSTEM DESTRUCTION ALONG WITH BONE MARROW DAMAGE AND "BLOOD CANCER" AND WHO KNOWS HOW MUCH "BRAIN AND HEART AND LUNG DAMAGE" AS ELAINE HAS ALSO "BEEN MEDICALLY-FORCIBLY TORTURED WITH FDA-UNAPPROVED ANTIPSYCHOTICS DAMAGING HEART AND BLOODCELLS. AND GIVEN UNAPPROVED FOR LONG-TERM USE LAXATIVES DESTROYING COLON BOWEL & METABOLIC SYSYEM FOR 640 DAYS SO INHUMANELY AND TORTUROUSLY TREATED AND NEAR-DEATH AT LEAST 3 TIMES IS VIRGINIA CRIMINAL LAW SECTION 18.2-369-B WHICH IS A CLASS 4 FELONY!

HAS A ROOT CANAL FINALLY OCCURRED IN FEBRUARY 2024-PRESENT DAY OF WHICH NEED ALL OFFICE VISITS NOTES PROVING WHEN THIS WAS FINALLY DONE AND WHAT WAS DONE FOR MOM AND DOES MOM NOW HAVE A JAW INFECTION FROM WITHHOLDING DENTAL CARE WHICH WAS DOCUMENTEDLY REQUESTED ON 10/16/22 AND IN 2021 ENTIRELY IGNORED FOR 2+ YEARS OF MOM'S SUFFERING AND PAIN!-🤔.

22+ MONTHS OF WITHHOLDING DENTAL CARE WHEN MOM HAD "DOCUMENTED CONTINUAL "TEETH PAIN PRIOR TO OCTOBER 2022" ENTIRELY IGNORED BY "ELDERTREE" & "DODGE" IS **CRIMINAL MEDICAL ELDER NEGLECT** IN **WITHHOLDING DENTAL AND MEDICAL CARE CAUSING ILLNESS, INFECTION, INJURY & DISEASE**

September 20, 2022
D1110 ADULT PROPHY

DENTAL PAINS AND SWELLING DISREGARDED AND IGNORED BY FIDUCIARIES

Health Hx Form Completed: No

Reviewed health history: Yes

Changes in health history: None

Peroxyl mouthrinse used for 60 seconds to reduce bacterial aerosols.

CC: Pt here for a cleaning. Case worker said she hasnt been eating and points to upper front teeth.

Periodic Exam completed, Exam By: Dr. JAC

OCSE: WNL

XRAYS: None taken

Intraoral Photos: No

Gingival Condition: Redness and Edema

FMP today? No

Bleeding: Moderate

Calculus: Moderate, Supra and Marginal

Perio Class: Chronic Periodontitis

Bone Loss:Slight, generalized

Ultrasonic used: No, not necessary

Hand scale: Yes

Polish: Yes

Floss:Yes

FL2: No

Next Recare visit: 3MRC

Does patient need to return for treatment? No

If yes, please explain: N/A Tooth#None

PVF forwarded to front desk: Not applicable

Additional notes: pt is agitated but allowed for scaling, polishing and flossing. Gingiva is edematous and has areas with severe redness and edema. Area of 27 lingual presents localized severe inflammation with red and bulbous gingiva. Dr John performed exam and had no significant findings. I suggested 3 months recalls as pt can't maintain proper oral hygiene. No findings on upper anterior area where she points to.

Limited Exam

Patient presented for prophylaxis & new patient examination. Patient & aide arrived about 15 minutes late.

Due to struggles with taking bitewing and periapical radiographs, tried taking panoramic radiograph. Successful on 3rd try.

Perio charting completed. Patient had not had her teeth cleaned since pre-pandemic.

Clinical examination performed by Dr. JAC. Suspect recurrent decay underneath crown on #30 and infection present on #18. Swollen gums around #18 with slight pus present (shown to nurse) and recommended possible re-treatment by endodontist, or extraction.

Discussed trying to find CBCT machine with bitewing capabilities to better diagnose other areas of concern. Her previous dentist, Dr. Hu in McLean had told them 3 root canals were necessary.

They will reach out to Dr. Hu's office to get their radiographs. Patient will return for cleaning and re-try bitewings at that time.

KDC/Dr. JAC/Nancy Roop

DR. HU INFORMED 3 ROOT CANALS WERE NECESSARY
