2)7/25-DR. MALLORY-BASED ON LABS:

5. Based on the review of the medical records, and testimony from Ms. Lynn Kay, Ms. Elaine Kapusta went nearly two years with the disease of Myelodysplastic Syndrome-(MDS) and did not receive any medical treatment.

\*\*It is my opinion, that this meets the criteria for medical elder neglect as per Virginia Criminal law under section 18.2-369-B.

6. I have further reviewed numerous emailed medical records sent to me from Ms. Lynn Kay regarding her mother and her medical care. Below are my opinions after reviewing them that I attest to.

a. I have reviewed all 30 emails or articles numbered on the associated pages.

b. I agree Ms. Lynn Kay was correct in requesting an anemia workup looking for the possible diagnosis of Myelodysplastic Syndrome-(MDS) in her mother in 2023 and 2024.

c. I agree that Ms. Kay was correct in requesting a dental evaluation in 2022 and 2023 to look for a dental abscess in her mother's mouth. Dr. Cusumano eventually diagnosed Ms. Kapusta with one on 5/8/23. Also Dr. Cusumano recommended sedation dentistry, Comprehensive Evaluation and follow-up Treatment.

d. I agree that Ms. Kay was correct in requesting blood cultures be drawn on Ms. Kapusta when Ms. Kapusta was suffering from multiple recurring urinary tract infections in 2022 and 2023.

e. I agree that in 2023 and 2024 and 2025, Ms. Kay was correct in requesting an iron panel testing for evaluation for Ms. Kapusta being evaluated for receiving an iron infusion as she has suffered since December 2022 with Myelodysplastic Syndrome-(MDS) and was eventually diagnosed with iron deficiency anemia on 5/22/23. Additionally, she was eventually diagnosed with Myelodysplastic Syndrome-(MDS) in February 2024 by both Dr. Dappen and Dr. Ershler.

f. I agree that Ms. Kay correctly and necessarily informed all fiduciaries since 1/28/23, including Dr. Dappen and Jeanne Blue- Eldertree regarding this very concerning occurrence of platelets and red blood cell destruction. This request for a hematologic evaluation should not have been ignored.

g. I agree that Myelodysplastic Syndrome-(MDS) is a "blood cancer" recognized by Cancer.org as being so.

7. These were Ms. Kapusta's last normal CBC values on 10/24/22. The lab results since then have all been abnormal in one way or another.

WBC-3.3

RBC-4.60

HGB-14.1

HCT-43.6

PLT-167

8. Ms. Kapusta has a history of Myelodysplastic Syndrome-(MDS) since December 2022. If she has not had an evaluation for red blood cell transfusion, and iron infusion to treat this disease, I recommend that she have this evaluation by a hematologist. The evaluation should include a bone marrow biopsy for confirming Myelodysplastic Syndrome-(MDS), and then beginning the proper treatment ..

9. Ms. Kapusta has a history of a dental abscess requiring a dental evaluation and antibiotics. However, an oral surgeon has to perform an incision and drainage procedure to fully treat the dental abscess properly. If Ms. Kapusta has not had this evaluated by a dentist or oral surgeon, to fully resolve the abscess diagnosed in May 2023, I recommend she have this done. She may require sedation for the evaluation and treatment to be done.

10. In both 2023 and 2024 Ms. Lynn Kay had concerns regarding her mother needing to be evaluated for "blood cancer and immunodeficiency". Ms. Kapusta was eventually diagnosed with "immunodeficiency" on 2/7 /24 by Dr. Ershler, and Myelodysplastic Syndrome-(MDS) on 2/9/24 by Dr. Dappen. Ill:

## CONCLUSION:

1. Finally, there is a downward trend in comparing laboratory results from September 27, 2022 to August 2, 2024. Ms. Kapusta maintained lower hemoglobin, lower hematocrit, and lower platelet levels during this period. Although the white cell count remained normal, this trend is consistent with her diagnosis of Myelodysplastic Syndrome-(MDS).

2. Ms. Elaine Kapusta received antibiotics for a dental infection on May 9, 2023, from Dr. Cusumano.

3. Based on lab values, Elaine Kapusta has only deteriorated outside of her home from 6/5/23 to 8/2/24, the last available lab values, and without receiving any medical care suffering myelodysplastic syndrome since December 2022.

4. Ms. Kapusta failed to ever be provided any proper medical care. This shows that Elaine living away from the care of Ms. Lynn Kay and being away from home has been detrimental to Elaine's health.
